- (4) PHILIP HAWTIN, a citizen of the United States and resident of Lodi, California, whose mailing address is 1172 Railroad Ave, Bldg. 120, Vallejo, CA 94592;

(hereinafter collectively termed "ASSIGNING INVENTORS"),

have jointly invented certain new and useful improvements in tools for use in medium to high power electrical distribution systems, and are the named co-inventors in a provisional patent application filed in the United States, disclosing and identifying the invention, said application identified as follows:

Title: ***Combination Loadbreak and Deadbreak Temporary Grounding Device***
U.S. Utility Patent Application Serial No: **16/947,552**
Filing Date: **August 6, 2020**
and

WHEREAS, the above application was made or authorized to be made for and on behalf of each of the ASSIGNING INVENTORS by ASSIGNEE (identified below);

WHEREAS, each of the ASSIGNING INVENTORS believes himself to be an original co-inventor of the invention described and illustrated in the application, and which claims priority to (i.e., claims the benefit of the filing date of) provisional patent application serial no. 62/883,571 filed August 6, 2019;

WHEREAS, META DESIGN & MANUFACTURING, INC., a California corporation, with a mailing address of 1172 Railroad Avenue, Bldg. 120, Vallejo, CA 94592 (hereinafter referred to

as "ASSIGNEE"), wishes to acquire the entire right, title and interest in and to said application and the invention and/or inventions disclosed therein, and in and to all embodiments of the inventions, heretofore conceived, made or discovered jointly or severally by said ASSIGNING INVENTORS (all collectively hereinafter termed "said inventions"), and in and to any and all patents, certificates of invention, and other forms of protection based on and covering said inventions (hereinafter termed "patents") applied for or granted in the United States and/or other countries.

NOW THEREFORE, for good and valuable consideration acknowledged by ASSIGNING INVENTORS to have been received in full from ASSIGNEE:

1. ASSIGNING INVENTORS do hereby sell, assign, transfer and convey to ASSIGNEE, the entire right, title and interest (a) in and to said applications and said inventions; (b) in and to all rights to apply in any or all countries of the world for patents, certificates of inventions or other governmental grants on said invention, including the right to apply for patents pursuant to the International Convention for the Protection of Industrial Property or pursuant to any other convention, treaty, agreement or understanding; (c) in and to any and all applications filed and any and all patents, certificates of inventions or other governmental grants granted on said inventions in the United States or any other country, including each and every application filed and each and every patent granted on any application which is a division, substitution, or continuation of any of said applications; (d) in and to each and every reissue or extension of any of said patents; and (e) in and to each and every patent claim resulting from a reexamination certificate for any and all of said patents.

2. ASSIGNING INVENTORS hereby covenant and agree to cooperate with ASSIGNEE to enable ASSIGNEE to enjoy to the fullest extent the right, title and interest herein conveyed in the United States and other countries. Such cooperation by ASSIGNING INVENTORS shall include prompt production of pertinent facts and documents, giving of testimony, executing of petitions, oaths, specification, declarations or other papers, and other assistance all to the extent deemed necessary or desirable by ASSIGNEE (a) for perfecting in ASSIGNEE the right, title and interest herein conveyed; (b) for complying with any duty of disclosure; (c) for prosecuting any of said applications; (d) for filing and prosecuting substitute, divisional, continuing or additional applications covering said invention; (e) for filing and prosecuting applications for reissue of any of said patents; (f) for interference or other priority proceedings involving said invention; and (g) for legal proceedings involving said invention and any applications therefor and any patents granted thereon, including without limitation opposition proceedings, cancellation proceedings, priority contests, public use proceedings, reexamination proceedings, compulsory licensing proceedings, infringement action and court actions; provided, however, that the expense incurred by ASSIGNING INVENTORS in providing such cooperation shall be paid for by said ASSIGNEE.

3. The terms and covenants of this Assignment shall inure to the benefit of said ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon ASSIGNING INVENTORS, their heirs, legal representatives and assigns.
