ASSIGNMENT OF INTANGIBLE ASSETS

This ASSIGNMENT OF INTANGIBLE ASSETS (“IP Assignment”) is made effective as of March 7, 2025 (the “Effective Date”) by and between Kent Displays, Inc., a Delaware corporation, located at 343 Portage Blvd., Kent, OH 44240 (“Assignor”) and Buffalo Games, LLC, a New York limited liability company, located at 220 James E Casey Dr, Buffalo, NY 14206 (“Assignee”).

WHEREAS, Assignor and Assignee are parties to a certain Asset Purchase Agreement, dated March 7, 2025 (the “Purchase Agreement”), pursuant to which Assignor has agreed to, among other things, sell, transfer, assign, convey and deliver all of Assignor’s rights, title, and interest in, to and under the Intangible Assets used in connection with the Business, including, without limitation:

- (i) the trademarks, service marks, icons, logos, fictitious business names, and any other indicia of source or sponsorship of goods and services including, without limitation, the registered and unregistered trademarks listed in the attached Exhibit A, along with the goodwill associated therewith (the “Trademarks”);
- (ii) the patents and patent applications listed in the attached Exhibit B, including any reissues, continuations, continuations-in-part, divisionals, revisions, extensions, reexaminations, in connection therewith and all international applications or foreign applications claiming the benefit or the priority thereto, and any renewals thereof (the “Patents”);
- (iii) all copyrights of the Assignor, including, without limitation, all copyrights listed in the attached Exhibit C (the “Copyrights”);
- (iv) the proprietary contact information, including, without limitation, the domain names listed in the attached Exhibit D (the “Domain Names”) and the social media accounts also listed in the attached Exhibit D, including, without limitation, all user names and passwords (the “Social Media Accounts”), along with the goodwill associated therewith (collectively, the “Proprietary Contact Information”);
- (v) the proprietary computer and mobile device applications developed by or on behalf of the Assignor including, without limitation, all software programs, computer programs, applications, code, scripts, routines, screens, user interfaces, report formats, algorithms, software implementations of algorithms, models, and methodologies associated therewith, whether in source code, object code, or other form, and all related data, databases, and compilations of data, including libraries and collections of data, whether machine readable or otherwise, including, without limitation, the mobile device applications listed in the attached Exhibit E (the “Technology”); and
- (vi) any and all additional intellectual property and other rights, privileges, and protections of any kind whatsoever of Assignor’s accruing under any of the foregoing provided at law or in equity throughout the world.

The Intangible Assets, together with the Trademarks, Patents, Copyrights, Proprietary Contact Information, and the Technology are collectively the “Acquired Intellectual Property.”

WHEREAS, Assignee has agreed to accept and acquire all such Acquired Intellectual Property free and clear of any encumbrances; and

WHEREAS, pursuant to the Purchase Agreement, Assignor and Assignee desire to execute and deliver this Assignment of Intangible Assets, effective as of the date of the Purchase Agreement, for

recording with governmental authorities including, but not limited to, the U.S. Patent and Trademark Office, the U.S. Copyright Office, and other applicable governmental offices around the world, to confirm and update the record of ownership in relation to the Acquired Intellectual Property.

NOW, THEREFORE, for and in consideration of the premises, and of the agreements and covenants hereinafter set forth, and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Definitions. All capitalized terms used in this Assignment of Intangible Assets that are not defined herein shall have the respective meanings given to them in the Purchase Agreement.
2. Assignment. Assignor hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title, and interest in, to, and under the Acquired Intellectual Property, together with the goodwill of the business connected with the use of, and symbolized by, the Acquired Intellectual Property, including, without limitation:

(a) the Acquired Intellectual Property set forth on Schedules A-E hereto and all issuances, extensions, and renewals thereof;

(b) all rights of any kind whatsoever of Assignor accruing under any of the Acquired Intellectual Property provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world, including all so-called moral rights relating to foregoing, and to the extent such moral rights may not be assigned, Assignor hereby waives any and all moral rights Assignor may have in the Copyrights, under 17 U.S.C. §106A or otherwise, for any and all uses of the same;

(c) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the Acquired Intellectual Property, except as otherwise set forth in the Purchase Agreement; and

(d) any and all claims and causes of action, with respect to any of the Acquired Intellectual Property, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

3. Recordation. Assignor hereby requests and authorizes the United States Patent and Trademark Office and the officials of all other governments to record, issue, or transfer the Acquired Intellectual Property to Assignee, as assignee and owner of the entire right title, and interest therein or otherwise as Assignee may direct.
4. Further Assurances. Assignor shall take such steps and actions following the date hereof, including the execution of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, documents, files, registrations, or other related items, as may reasonably requested by the Assignee and at the Assignee's expenses, to ensure that the Acquired Intellectual Property are properly assigned to the Assignee, or any permitted assignee or successor thereto. Assignor further covenants, agrees, and undertakes to take all steps requested by Assignee that are reasonably necessary to effect such assignment of the Acquired Intellectual Property or otherwise to ensure Assignee's ability to control such Acquired Intellectual Property. If, due to applicable rules or regulations, any Proprietary Contact Information cannot be assigned, the parties agree to discuss a reasonable resolution, and until such

reasonable resolution is reached, Assignor shall maintain such Domain Names and Social Media Accounts in full force and effect and operate such Domain Names and Social Media Accounts at Assignor's direction, including pointing a domain to another URL selected by Assignee.

5. Cooperation. Assignor agrees to cooperate with Assignee so that Assignee may enjoy to the fullest extent the rights assigned hereunder. Assignor agrees to execute and deliver any instruments and perform any acts which may be reasonably necessary and requested by the Assignee to fully effectuate and record in any and all jurisdictions throughout the world the assignment of the rights, titles, and interests assigned to Assignee pursuant to this Intellectual Property Assignment.
6. Attorney-In-Fact. Assignor hereby constitutes and appoints Assignee as Assignor's true and lawful attorney-in-fact, with full power of substitution in Assignor's name and Assignor's stead, but for Assignee's benefit, to take any and all commercially reasonable steps, including proceedings at law, in equity, or otherwise to execute, acknowledge, and deliver any and all instruments and assurances reasonably necessary in order to vest the aforesaid Intellectual Property, and causes of action, more effectively in Assignee or to protect the same, or to enforce any claim or right of any kind with respect thereto. This includes any rights with respect to the Intellectual Property that may have accrued in Assignor's favor up to the Effective Date. Assignor hereby declares that the foregoing power is coupled with an interest and is irrevocable.
7. Successors and Assigns. The terms and provisions of this Intellectual Property Assignment shall inure to the benefit of Assignee and its licensees, successors, heirs, and assigns, and shall be binding on Assignor, its licensees, successors, heirs, and assigns.
8. Entire Agreement. In the event of any conflict or inconsistency between this IP Assignment and the Asset Purchase Agreement, the provisions of the Asset Purchase Agreement will control and prevail.
9. Counterparts. This IP Assignment may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original. This IP Assignment may not be amended except by an instrument in writing signed by all of the parties hereto.
10. Governing Law. This IP Assignment shall be construed in accordance with Delaware law without giving effect to the choice or conflicts of law provisions thereof.
