PATENT ASSIGNMENT AGREEMENT

THIS PATENT ASSIGNMENT AGREEMENT (this "Agreement") is entered into as of April 26, 2024, by and between Hydrite Chemical Co., a Wisconsin corporation ("Assignee"), and RKM IP Holding, LLC, a Delaware limited liability company ("Assignor"). Capitalized terms used herein and not defined shall have the meanings given to them in the Purchase Agreement (as defined below).

RECITALS:

- (a) Assignor and Assignee, among other parties thereto, have entered into an Asset Purchase Agreement as of even date herewith (the "Purchase Agreement"), providing for, among other things, the purchase by Assignee from Assignor of the patent described on Exhibit 1 hereto (the "Purchased Patent").
- (b) This Assignment is being executed pursuant to the Purchase Agreement.

AGREEMENT:

NOW, THEREFORE, in consideration of the Recitals set forth above, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereby agree as follows:

1. Assignor hereby irrevocably sells, transfers, assigns and conveys to Assignee, free and clear of any and all Liens, all of Assignor's right, title and interest in and to the Purchased Patent, including, without limitation, the right to file any applications, reissues, continuations, continuations-in-part, and divisionals thereof, and the rights to recover damages and profits for past, present or future infringements or unauthorized use thereof, with the right to sue for, and collect the same for its own use and enjoyment, and for the use and enjoyment of its successors, assigns, or other legal representatives as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made.

2. Assignor hereby acknowledges and agrees that from and after the date hereof, Assignee shall be the exclusive owner of Assignor's right, title, and interest in the Purchased Patent.

3. Assignor hereby authorizes and requests the U.S. Patent and Trademark Office and any foreign patent offices to record Assignee as the owner of the Purchased Patent.

4. Assignor further agrees that should additional documentation of the assignment or further acts be required to protect, secure, vest and record good title to the Purchased Patent in Assignee, Assignor will, without further consideration, promptly provide or execute such other documents or take such further acts as may be reasonably necessary upon Assignee's reasonable request, including reasonable cooperation and assistance in the prosecution or defense of any proceeding that may arise in connection with any of the rights assigned hereby. In the event that Assignor is unable for any reason whatsoever to secure the necessary signatures to any document Assignee is required to execute pursuant to the foregoing, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents power of attorney to execute and

file any such document and to do all other lawfully permitted acts to further the purposes of the foregoing with the same legal force and effect as if executed by Assignor. This power of attorney will be deemed coupled with an interest and will be irrevocable.

5. Assignor's right, title, and interest in the Purchased Patent is being transferred by Assignor to Assignee, and assumed by Assignee, pursuant to the Purchase Agreement. In the event of a conflict between the terms and conditions of this Assignment and the terms and conditions of the Purchase Agreement, the terms and conditions of the Purchase Agreement shall govern, supersede and prevail.

6. This Assignment shall be governed by and construed under and in accordance with the internal laws of the State of Wisconsin, excluding any choice of law rules that may direct the application of the laws of another jurisdiction.

7. This Assignment may be executed in counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same agreement. Each of the parties to this Assignment agrees that a signature affixed to a counterpart of this Assignment and delivered by electronic transmission by or on behalf of such party is intended to be its, his or her signature and shall be valid, binding and enforceable against such person.
