## INTELLECTUAL PROPERTY SECURITY AGREEMENT

THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT (“IP Security Agreement”), dated as of May 21, 2020, is made by and between Rockford Corporation, an Arizona corporation (the “Grantor”), in favor of Bankers Trust Company, an Iowa state-chartered bank (“Lender”).

WHEREAS, the Grantor and Lender have entered into that certain Loan Agreement dated as of even date herewith (the “Loan Agreement”).

WHEREAS, in connection with the Loan Agreement, the Grantor has entered into that certain Security Agreement, dated as of even date herewith (the “Security Agreement”) in favor of Lender.

WHEREAS, under the terms of the Security Agreement, the Grantor has granted to Lender a security interest in, among other property, the Intellectual Property of the Grantor, and has agreed to execute and deliver this IP Security Agreement for recording with governmental authorities, including, but not limited to, the United States Patent and Trademark Office and the United States Copyright Office.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant of Security. Grantor hereby pledges and grants to Lender a security interest in and to all of the right, title, and interest of such Grantor in, to, and under the following (the “IP Collateral”):

a. the Patents and Intellectual Property Licenses providing for the grant by or to the Grantor of any right under any Patent set forth in Schedule 1 hereto and all reissues, divisions, continuations, continuations-in-part, renewals, extensions, and reexaminations thereof and amendments thereto;

b. the Trademarks and Intellectual Property Licenses providing for the grant by or to the Grantor of any right under any Trademark set forth in Schedule 2 hereto, together with the goodwill connected with the use thereof and symbolized thereby, and all extensions and renewals thereof, excluding only United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant, attachment, or enforcement of a security interest therein would, under applicable federal law, impair the registrability of such applications or the validity or enforceability of registrations issuing from such applications;

c. the Copyrights and Intellectual Property Licenses providing for the grant by or to the Grantor of any right under any Copyright set forth in Schedule 3 hereto, and all extensions, reversions, and renewals thereof;

d. all rights of any kind whatsoever of such Grantor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

e. any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

f. any and all claims and causes of action with respect to any of the foregoing, whether occurring before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right, but no obligation, to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation. Each Grantor authorizes the Commissioner for Patents, and the Commissioner for Trademarks, and the Register of Copyrights, and any other government officials to record and register this IP Security Agreement upon request by Lender.

3. Credit Documents. This IP Security Agreement has been entered into pursuant to and in conjunction with the Security Agreement, which is hereby incorporated by reference. The provisions of the Security Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of Lender with respect to the IP Collateral are as provided by the Credit Agreement, the Security Agreement, and related documents, and nothing in this IP Security Agreement shall be deemed to limit such rights and remedies.

4. Execution in Counterparts. This IP Security Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this IP Security Agreement by facsimile or in electronic (i.e., "pdf" or "tif") format shall be effective as delivery of a manually executed counterpart of this IP Security Agreement.

5. Successors and Assigns. This IP Security Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Defined Terms. Capitalized terms used herein without definition are used as defined in the Security Agreement.

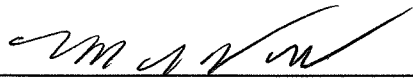

7. Governing Law. This IP Security Agreement and any claim, controversy, dispute, or cause of action (whether in contract or tort or otherwise) based upon, arising out of, or relating to this IP Security Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Arizona without giving effect to any choice or conflict of law provision or rule (whether of the State of Arizona or any other jurisdiction).

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the Grantor has caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
