WHEREAS, ProFrac Holdings II, LLC, a Texas limited liability company, is party to a Credit Agreement dated as of March 4, 2022, with JPMorgan Chase Bank, N.A., as the Collateral Agent, ProFrac Holdings, LLC., a Texas limited liability company, the other Guarantors (as defined in the Credit Agreement) from time to time party thereto and the Lenders from time to time party thereto (as amended, amended and restated, supplemented or otherwise modified from time to time, the “*Credit Agreement*”);

WHEREAS, pursuant to the terms of the Credit Agreement, each Grantor has entered into and is party to (whether by joinder or otherwise) that certain Security Agreement dated as of March 4, 2022 made by the Grantors, certain other parties and the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the “*Security Agreement*”; capitalized terms used but not defined herein shall have the meanings ascribed therein);

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Collateral Agent, for the benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the USPTO and the USCO, as applicable;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1 Grant of Security. As security for the due and prompt payment and performance when due (whether at the stated maturity, by acceleration or otherwise) by each Grantor of all of its Obligations under the Credit Agreement, each Grantor hereby grants to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in and continuing lien on all of such Grantor’s right, title and interest in or to any and all of the following properties and assets of such Grantor and all powers and rights of such Grantor in all of the following (including the power to transfer rights in the following), whether now owned or existing or at any time hereafter acquired or arising, regardless of where located (the “*IP Collateral*”):

(A) the patents and patent applications set forth in Schedule A hereto (the “*Patents*”);

(B) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the “*Trademarks*”); and

(C) the copyright registrations and applications owned or exclusively licensed as set forth in Schedule C hereto (the “*Copyrights*”);

agreed upon and applicable, any other applicable government office, record this IP Security Agreement.

SECTION 3 Execution in Counterparts. This IP Security Agreement may be authenticated in any number of separate counterparts, each of which shall collectively and separately constitute one and the same agreement. This IP Security Agreement may be authenticated by manual signature, facsimile or other electronic communication, and the effectiveness of this IP Security Agreement and signatures thereon shall have the same force and effect as manually signed originals and shall be binding on all parties thereto. The Collateral Agent may require that any such signatures be confirmed by a manually signed original thereof, provided that the failure to request or deliver the same shall not limit the effectiveness of any signature delivered electronically or by facsimile.

SECTION 4 Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the IP Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.
