PATENT AND TRADEMARK COLLATERAL ASSIGNMENT

This Patent and Trademark Collateral Assignment, dated as of December 18, 1997 from THE C.P. HALL COMPANY, an Ohio corporation (herein called the "Company"), to BANK OF AMERICA NATIONAL TRUST AND SAVINGS ASSOCIATION, a national banking association (herein called the "Bank").

WHEREAS, the Company has entered into a certain Loan and Security Agreement, dated as of even date herewith (herein, as the same may be amended, modified, supplemented or renewed called the "Secured Credit Agreement") with the Bank pursuant to which the Bank has agreed to make loans and issue letters of credit to the Company;

WHEREAS, the Company is the owner of certain United States patents as more particularly specified in Schedule I attached hereto and of certain registered United States trademarks as more particularly specified in Schedule II attached hereto; and

WHEREAS, the Secured Credit Agreement provides for the Company to execute and deliver to the Bank a Patent and Trademark Collateral Assignment in the form of this Assignment, and to assign to the Bank all such patents and trademarks, all as more fully hereinafter set forth;

NOW, THEREFORE, in consideration of any loan heretofore or hereafter made to the Company and for other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto agree as follows:

SECTION 1. Definitions. When used herein, the following terms shall have the following meanings:

The terms "Borrower", "Commitments", "Event of Default", "Liabilities", "Notes", "Unmatured Event of Default", and all other terms used but not defined herein shall have the meanings assigned thereto in the Secured Credit Agreement.

"Patents" - see Section 2 hereof.

"Trademarks" - see Section 2 hereof.

SECTION 2. Assignment. Solely as security for the payment of the Notes and all other Liabilities, the Company hereby grants, assigns, and conveys unto the Bank, its successors and assigns, a security interest, with power of sale to the extent permitted by law, in and to the following: (a) all foreign and United States patents, including but not limited to those listed in Schedule I attached hereto, and in and to any and all, and all patents for, reissues, divisions, continuations, renewals, extensions and continuations-in-part thereof, the right to sue for past, present and future infringements thereof, all rights corresponding thereto throughout the world, and all proceeds of the foregoing (including, without limitation, license

royalties and proceeds of infringement suits) (all of the foregoing being herein called collectively the "Patents"); and (b) all foreign and United States trademarks and trademark registrations, including but not limited to those listed on Schedule II hereto, and all of the goodwill of the business connected with the use of, and symbolized by, each trademark and trademark registration, and all continuations and extensions thereof, the right to sue for past, present, and future infringements or dilutions thereof or for injury to the goodwill associated therewith, all rights corresponding thereto throughout the world, and all proceeds of the foregoing (including, without limitation, license, royalties and proceeds of suit) (all of the foregoing being herein called collectively the "Trademarks").

SECTION 3. Warranties and Covenants. The Company hereby warrants and agrees that: (a) to the knowledge of the Company, each of the Patents and Trademarks is subsisting and has not been adjudged invalid or unenforceable, in whole or in part; (b) to the best of the Company's knowledge, each of the Patents and Trademarks is valid and enforceable; (c) to the knowledge of the Company, the Company is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of the Patents and Trademarks, free and clear of any liens, charges and encumbrances, including, without limitation, licenses, shop rights and covenants by the Company not to sue third persons; (d) the Company has the unqualified right to enter into this Assignment and perform its terms; (e) to the knowledge of the Company, no litigation is pending or threatened which contains allegations respecting the validity of any of the Patents or Trademarks; and (f) except to the extent that the Bank shall consent in writing, the Company (either itself or through licensees) will, unless the Company shall reasonably determine that a Trademark is of negligible economic value to the Company, (i) continue to use each Trademark on each and every trademark class of goods applicable to its current line as reflected in its current catalogs, brochures and price lists in order to maintain each Trademark in full force free from any claim of abandonment for non-use, (ii) maintain as in the past the quality of products and services offered under each Trademark, (iii) employ each Trademark with the appropriate notice of application or registration, (iv) not adopt or use any mark which is confusingly similar or a colorable imitation of any Trademark, (v) not use any Trademark except for the uses for which registration or application for registration of such Trademark has been made, and (vi) not (and not permit any licensee or sublicensee thereto to) do any act or knowingly omit to do any act whereby any Trademark may become invalidated.

SECTION 4. Protection of Patents and Trademarks. The Company shall have the duty to protect, preserve and maintain all rights in each of the Patents and Trademarks, including but not limited to the duty to prosecute and/or defend against any and all suits contesting infringement or dilution of the Patents or Trademarks, any other suits containing allegations respecting the validity of the Patents or the Trademarks, and any suits claiming injury to the goodwill associated with any of the Trademarks. Any expenses incurred in protecting, preserving and maintaining the Patents or Trademarks shall be borne by the Company. The Bank shall have the right to bring suit to enforce any or all Patents, Trademarks, or licenses thereunder, in which event the Company shall at the request of the Bank do any and all lawful acts and execute any and all proper documents required by the Bank in aid of such enforcement and the Company shall promptly, upon demand, reimburse and indemnify the

Bank for all costs and expenses incurred by the Bank in the exercise of its rights under this Section 5. Notwithstanding the foregoing, the Bank shall have no obligations or liabilities regarding the Patents or Trademarks or any of them by reason of, or arising out of, this Assignment.

SECTION 5. Reissues, etc. If, before the Liabilities shall have been paid in full, the Company shall become entitled to any patent for any reissue, division, continuation, renewal, extension, or continuation-in-part of any of the Patents or any improvement on any Patent, the provisions of Section 2 shall automatically apply thereto and the Company shall give to the Bank prompt notice thereof in writing. The Company hereby authorizes the Bank to modify this Assignment by amending Schedule I attached hereto to include any future patents and patent applications which are Patents under Section 2 hereof or this Section 6.

SECTION 6. Reassignment. At such time as the Company shall completely satisfy all of the Liabilities, the Bank shall execute and deliver to the Company all deeds, assignments and other instruments as may be necessary or proper to reassign to the Company the interest in the Patents and Trademarks assigned pursuant to this Assignment, subject to any disposition thereof which may have been made by the Bank. Any such reassignment shall be without recourse upon or warranty by the Bank and at the expense of the Company.

SECTION 7. Remedies. Whenever an Event of Default shall exist, all Liabilities may or shall, as the case may be, become immediately due and payable, as provided in the Secured Credit Agreement. If any Event of Default shall exist, the Company's license under the Trademarks and the Patents as set forth in Section 2 hereof shall terminate forthwith and the Bank shall have, in addition to all other rights and remedies given it by this Assignment, those allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in any jurisdiction in which the Patents or Trademarks or any thereof may be located and, without limiting the generality of the foregoing, the Bank may immediately, without demand of performance and without other notice (except as set forth next below) or demand whatsoever to the Company, all of which are hereby expressly waived, and without advertisement, sell at public or private sale or otherwise realize upon, in Chicago, Illinois or elsewhere, the whole or from time to time any part of the Patents or Trademarks or any interest which the Company may have therein. Notice of any sale or other disposition of the Patents or Trademarks or any thereof shall be given to the Company at least five days before the time of any intended public or private sale or other disposition of the Patents or Trademarks or any thereof is to be made, which the Company hereby agrees shall be reasonable notice of such sale or other disposition. At any such sale or other disposition, the Bank may, to the extent permissible under applicable law, purchase the whole or any part of any Patent or Trademark sold, free from any right of redemption on the part of the Company, which right is hereby waived and released. The proceeds of such dispositions may be applied by the Bank to the payment of expenses in connection with the Patents and Trademarks, including, without limitation, reasonable attorneys' fees and legal expenses, and any balance thereof may be applied by the Bank toward the payment of such of the Liabilities, and in such order of application, as the Agent or Required Bank may from time to time elect.

SECTION 8. General. The Company will, upon request of the Bank, execute such financing statements and other documents (and pay the cost of filing or recording the same in all public offices deemed necessary by the Bank), and do such other acts and things, all as the Bank may from time to time request to establish and maintain a valid assignment of the Patents and Trademarks.

This Assignment, and the terms, covenants and conditions hereof, shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns, except that the Company shall not be permitted to assign this Assignment or any interest herein or in the Patents or Trademarks, or any part thereof.

Neither this Assignment nor any provision hereof may be amended, modified, waived, discharged or terminated except by an instrument in writing duly signed by or on behalf of the Bank.

No delay on the part of the Bank in exercising any rights, power or remedy hereunder shall operate as a waiver thereof nor shall any single or partial exercise of any such right, power or remedy preclude any other further exercise thereof or the exercise of any other right, power or remedy. No amendment, modification or waiver of, or any consent with respect to, any provision of this Assignment shall in any event be effective unless the same shall be in writing, and signed and delivered by the party to be bound thereby, and then such amendment, modification, waiver of consent shall be effective only in the specific instance and for the purpose for which given.

All obligations of the Company and all rights, powers and remedies of the Bank expressed herein are in addition to all other rights, powers and remedies possessed by them, including, without limitation, those provided by applicable law or in any other written instrument or agreement relating to any of the Liabilities or security therefor.

Except as otherwise provided herein, the provisions of the Secured Credit Agreement shall apply as to the giving of notices hereunder.

At the Bank's option this Assignment, or a carbon, photographic or other reproduction of this Assignment or of any Uniform Commercial Code financing statement covering the Patents and Trademarks or any portion thereof, shall be sufficient as the Uniform Commercial Code financing statement and may be filed.

Section captions used in this Assignment are for convenience of reference only, and shall not affect the construction of this Assignment.

This Assignment shall in all respects be a continuing agreement and shall remain in full force and effect until expiration or termination of all of the Commitments and final payment in full of all Liabilities.

This Assignment has been delivered at Chicago, Illinois, and shall be construed in accordance with and governed by the laws of the State of Illinois, without regard to conflict of laws principles. Wherever possible each provision of this Assignment shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Assignment shall be prohibited by or invalid under such law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Assignment.

This Assignment is made by the Company and is accepted by the Bank for collateral security purposes only and by its acceptance thereof, the Bank shall have only the rights of a secured party under the Uniform Commercial Code or other applicable law and shall not be deemed the owner of the Patents and Trademarks or responsible for the maintenance, registration or any other actions with respect to the Patents or Trademarks referred to herein.

PATENT AND TRADEMARK COLLATERAL ASSIGNMENT

This Patent and Trademark Collateral Assignment, dated as of December 18, 1997 from THE C.P. HALL COMPANY, an Ohio corporation (herein called the "Company"), to BANK OF AMERICA NATIONAL TRUST AND SAVINGS ASSOCIATION, a national banking association (herein called the "Bank").

WHEREAS, the Company has entered into a certain Loan and Security Agreement, dated as of even date herewith (herein, as the same may be amended, modified, supplemented or renewed called the "Secured Credit Agreement") with the Bank pursuant to which the Bank has agreed to make loans and issue letters of credit to the Company;

WHEREAS, the Company is the owner of certain United States patents as more particularly specified in Schedule I attached hereto and of certain registered United States trademarks as more particularly specified in Schedule II attached hereto; and

WHEREAS, the Secured Credit Agreement provides for the Company to execute and deliver to the Bank a Patent and Trademark Collateral Assignment in the form of this Assignment, and to assign to the Bank all such patents and trademarks, all as more fully hereinafter set forth;

NOW, THEREFORE, in consideration of any loan heretofore or hereafter made to the Company and for other good and valuable consideration, receipt of which is hereby acknowledged, the parties hereto agree as follows:

SECTION 1. Definitions. When used herein, the following terms shall have the following meanings:

The terms "Borrower", "Commitments", "Event of Default", "Liabilities", "Notes", "Unmatured Event of Default", and all other terms used but not defined herein shall have the meanings assigned thereto in the Secured Credit Agreement.

"Patents" - see Section 2 hereof.

"Trademarks" - see Section 2 hereof.

SECTION 2. Assignment. Solely as security for the payment of the Notes and all other Liabilities, the Company hereby grants, assigns, and conveys unto the Bank, its successors and assigns, a security interest, with power of sale to the extent permitted by law, in and to the following: (a) all foreign and United States patents, including but not limited to those listed in Schedule I attached hereto, and in and to any and all, and all patents for, reissues, divisions, continuations, renewals, extensions and continuations-in-part thereof, the right to sue for past, present and future infringements thereof, all rights corresponding thereto throughout the world, and all proceeds of the foregoing (including, without limitation, license

royalties and proceeds of infringement suits) (all of the foregoing being herein called collectively the "Patents"); and (b) all foreign and United States trademarks and trademark registrations, including but not limited to those listed on Schedule II hereto, and all of the goodwill of the business connected with the use of, and symbolized by, each trademark and trademark registration, and all continuations and extensions thereof, the right to sue for past, present, and future infringements or dilutions thereof or for injury to the goodwill associated therewith, all rights corresponding thereto throughout the world, and all proceeds of the foregoing (including, without limitation, license, royalties and proceeds of suit) (all of the foregoing being herein called collectively the "Trademarks").

SECTION 3. Warranties and Covenants. The Company hereby warrants and agrees that: (a) to the knowledge of the Company, each of the Patents and Trademarks is subsisting and has not been adjudged invalid or unenforceable, in whole or in part; (b) to the best of the Company's knowledge, each of the Patents and Trademarks is valid and enforceable; (c) to the knowledge of the Company, the Company is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of the Patents and Trademarks, free and clear of any liens, charges and encumbrances, including, without limitation, licenses, shop rights and covenants by the Company not to sue third persons; (d) the Company has the unqualified right to enter into this Assignment and perform its terms; (e) to the knowledge of the Company, no litigation is pending or threatened which contains allegations respecting the validity of any of the Patents or Trademarks; and (f) except to the extent that the Bank shall consent in writing, the Company (either itself or through licensees) will, unless the Company shall reasonably determine that a Trademark is of negligible economic value to the Company, (i) continue to use each Trademark on each and every trademark class of goods applicable to its current line as reflected in its current catalogs, brochures and price lists in order to maintain each Trademark in full force free from any claim of abandonment for non-use, (ii) maintain as in the past the quality of products and services offered under each Trademark, (iii) employ each Trademark with the appropriate notice of application or registration, (iv) not adopt or use any mark which is confusingly similar or a colorable imitation of any Trademark, (v) not use any Trademark except for the uses for which registration or application for registration of such Trademark has been made, and (vi) not (and not permit any licensee or sublicensee thereto to) do any act or knowingly omit to do any act whereby any Trademark may become invalidated.

SECTION 4. Protection of Patents and Trademarks. The Company shall have the duty to protect, preserve and maintain all rights in each of the Patents and Trademarks, including but not limited to the duty to prosecute and/or defend against any and all suits contesting infringement or dilution of the Patents or Trademarks, any other suits containing allegations respecting the validity of the Patents or the Trademarks, and any suits claiming injury to the goodwill associated with any of the Trademarks. Any expenses incurred in protecting, preserving and maintaining the Patents or Trademarks shall be borne by the Company. The Bank shall have the right to bring suit to enforce any or all Patents, Trademarks, or licenses thereunder, in which event the Company shall at the request of the Bank do any and all lawful acts and execute any and all proper documents required by the Bank in aid of such enforcement and the Company shall promptly, upon demand, reimburse and indemnify the

Bank for all costs and expenses incurred by the Bank in the exercise of its rights under this Section 5. Notwithstanding the foregoing, the Bank shall have no obligations or liabilities regarding the Patents or Trademarks or any of them by reason of, or arising out of, this Assignment.

SECTION 5. Reissues, etc. If, before the Liabilities shall have been paid in full, the Company shall become entitled to any patent for any reissue, division, continuation, renewal, extension, or continuation-in-part of any of the Patents or any improvement on any Patent, the provisions of Section 2 shall automatically apply thereto and the Company shall give to the Bank prompt notice thereof in writing. The Company hereby authorizes the Bank to modify this Assignment by amending Schedule I attached hereto to include any future patents and patent applications which are Patents under Section 2 hereof or this Section 6.

SECTION 6. Reassignment. At such time as the Company shall completely satisfy all of the Liabilities, the Bank shall execute and deliver to the Company all deeds, assignments and other instruments as may be necessary or proper to reassign to the Company the interest in the Patents and Trademarks assigned pursuant to this Assignment, subject to any disposition thereof which may have been made by the Bank. Any such reassignment shall be without recourse upon or warranty by the Bank and at the expense of the Company.

SECTION 7. Remedies. Whenever an Event of Default shall exist, all Liabilities may or shall, as the case may be, become immediately due and payable, as provided in the Secured Credit Agreement. If any Event of Default shall exist, the Company's license under the Trademarks and the Patents as set forth in Section 2 hereof shall terminate forthwith and the Bank shall have, in addition to all other rights and remedies given it by this Assignment, those allowed by law and the rights and remedies of a secured party under the Uniform Commercial Code as enacted in any jurisdiction in which the Patents or Trademarks or any thereof may be located and, without limiting the generality of the foregoing, the Bank may immediately, without demand of performance and without other notice (except as set forth next below) or demand whatsoever to the Company, all of which are hereby expressly waived, and without advertisement, sell at public or private sale or otherwise realize upon, in Chicago, Illinois or elsewhere, the whole or from time to time any part of the Patents or Trademarks or any interest which the Company may have therein. Notice of any sale or other disposition of the Patents or Trademarks or any thereof shall be given to the Company at least five days before the time of any intended public or private sale or other disposition of the Patents or Trademarks or any thereof is to be made, which the Company hereby agrees shall be reasonable notice of such sale or other disposition. At any such sale or other disposition, the Bank may, to the extent permissible under applicable law, purchase the whole or any part of any Patent or Trademark sold, free from any right of redemption on the part of the Company, which right is hereby waived and released. No delay on the part of the Bank in exercising any rights, power or remedy hereunder shall operate as a waiver thereof nor shall any single or partial exercise of any such right, power or remedy preclude any other further exercise thereof or the exercise of any other right, power or remedy. No amendment, modification or waiver of, or any consent with respect to, any provision of this Assignment shall in any event be effective unless the same shall be in writing, and signed and delivered by the party to be bound thereby, and then such amendment, modification, waiver of consent shall be effective only in the specific instance and for the purpose for which given.

All obligations of the Company and all rights, powers and remedies of the Bank expressed herein are in addition to all other rights, powers and remedies possessed by them, including, without limitation, those provided by applicable law or in any other written instrument or agreement relating to any of the Liabilities or security therefor.

Except as otherwise provided herein, the provisions of the Secured Credit Agreement shall apply as to the giving of notices hereunder.

Wherever possible each provision of this Assignment shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Assignment shall be prohibited by or invalid under such law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Assignment.

This Assignment is made by the Company and is accepted by the Bank for collateral security purposes only and by its acceptance thereof, the Bank shall have only the rights of a secured party under the Uniform Commercial Code or other applicable law and shall not be deemed the owner of the Patents and Trademarks or responsible for the maintenance, registration or any other actions with respect to the Patents or Trademarks referred to herein.
