INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated as of June 30, 2003 (as amended, supplemented or otherwise modified from time to time, the "Intellectual Property Security Agreement"), is made by each of the signatories hereto (collectively, the "Grantors") in favor of Lehman Commercial Paper Inc., as administrative agent (in such capacity, the "Administrative Agent") for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS, Travel Transaction Processing Corporation, a Delaware corporation, WS Holdings LLC, a Delaware limited liability company, and Worldspan, L.P., a Delaware limited partnership (the "Borrower"), have entered into a Credit Agreement, dated as of June 30, 2003 (as amended, supplemented, replaced or otherwise modified from time to time, the "Credit Agreement"), with the banks and other financial institutions and entities from time to time party thereto (the "Lenders"), Lehman Brothers Inc. and Deutsche Bank Securities Inc., as joint lead arrangers and joint book-runners, Deutsche Bank Securities Inc., as syndication agent, JPMorgan Chase Bank, Citicorp North America, Inc. and Dymas Capital Management Company, LLC, as documentation agents, and Lehman Commercial Paper Inc., as administrative agent. Capitalized terms used and not defined herein have the meanings given such terms in the Credit Agreement.

WHEREAS, it is a condition precedent to the obligation of the Lenders to make their respective extensions of credit to the Borrower under the Credit Agreement that the Grantors shall have executed and delivered that certain Guarantee and Collateral Agreement, dated as of June 30, 2003, in favor of the Administrative Agent (as amended, supplemented, replaced or otherwise modified from time to time, the "Guarantee and Collateral Agreement").

WHEREAS, under the terms of the Guarantee and Collateral Agreement, the Grantors have granted a security interest in certain Property, including, without limitation, certain Intellectual Property of the Grantors to the Administrative Agent for the ratable benefit of the Secured Parties, and have agreed as a condition thereof to execute this Intellectual Property Security Agreement for recording with the United States Patent and Trademark Office, the United States Copyright Office, and other applicable Governmental Authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantors agree as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Administrative Agent for the ratable benefit of the Secured Parties a security interest in and to all of such Grantor's right, title and interest in and to the following (the "Intellectual Property Collateral"), as collateral security for the prompt and complete payment and performance when due (whether at the stated maturity, by acceleration or otherwise) of such Grantor's Obligations:

(a) (i) all trademarks, service marks, trade names, corporate names, company names, business names, trade dress, trade styles, logos, or other indicia of origin or source identification, trademark and service mark registrations, and applications for trademark or service mark registrations and any new renewals thereof, including, without limitation, each registration and application identified in Schedule 1, (ii) the right to sue or otherwise recover for

any and all past, present and future infringements and misappropriations thereof, (iii) all income, royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof), and (iv) all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto, together in each case with the goodwill of the business connected with the use of, and symbolized by, each of the above (collectively, the "Trademarks");

(b) (i) all patents, patent applications and patentable inventions, including, without limitation, each issued patent and patent application identified in Schedule 1, (ii) all inventions and improvements described and claimed therein, (iii) the right to sue or otherwise recover for any and all past, present and future infringements and misappropriations thereof, (iv) all income, royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof), and (v) all reissues, divisions, continuations, continuations-in-part, substitutes, renewals, and extensions thereof, all improvements thereon and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto (collectively, the "Patents");

(c) (i) all copyrights, whether or not the underlying works of authorship have been published, and all works of authorship and other intellectual property rights therein, all copyrights of works based on, incorporated in, derived from or relating to works covered by such copyrights, all right, title and interest to make and exploit all derivative works based on or adopted from works covered by such copyrights, and all copyright registrations and copyright applications, and any renewals or extensions thereof, including, without limitation, each registration and application identified in Schedule 1, (ii) the rights to print, publish and distribute any of the foregoing, (iv) the right to sue or otherwise recover for any and all past, present and future infringements and misappropriations thereof, (iv) all income, royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof), and (v) all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto ("Copyrights");

(d) (i) all trade secrets and all confidential and proprietary information, including know-how, manufacturing and production processes and techniques, inventions, research and development information, technical data, financial, marketing and business data, pricing and cost information, business and marketing plans, and customer and supplier lists and information, including, without limitation, any of the foregoing identified in Schedule 1, (ii) the right to sue or otherwise recover for any and all past, present and future infringements and misappropriations thereof, (iii) all income, royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof), and (iv) all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto (collectively, the "Trade Secrets");

(e) (i) all licenses or agreements, whether written or oral, providing for the grant by or to any Grantor of: (A) any right to use any Trademark or Trade Secret, (B) any right to manufacture, use or sell any invention covered in whole or in part by a Patent, and (C) any right under any Copyright including, without limitation, the grant of rights to manufacture, distribute, exploit and sell materials derived from any Copyright including, without limitation, any of the foregoing identified in Schedule 1, (ii) the right to sue or otherwise recover for any and all past, present and future infringements and misappropriations of any of the foregoing, (iii) all income, royalties, damages and other payments now and hereafter due and/or payable with respect thereto (including, without limitation, payments under all licenses entered into in connection therewith, and damages and payments for past, present or future infringements thereof), and (iv) all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto; and

(f) any and all proceeds of the foregoing.

Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner of Patents and Trademarks and any other applicable government officer record this Intellectual Property Security Agreement.

Execution in Counterparts. This Agreement may be executed in any number of counterparts (including by telecopy), each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

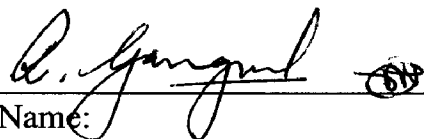

Governing Law. This Intellectual Property Security Agreement shall be governed by, and construed and interpreted in accordance with, the law of the State of New York.

Conflict Provision. This Intellectual Property Security Agreement has been entered into in conjunction with the provisions of the Guarantee and Collateral Agreement and the Credit Agreement. The rights and remedies of each party hereto with respect to the security interest granted herein are without prejudice to, and are in addition to those set forth in the Guarantee and Collateral Agreement and the Credit Agreement, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this Intellectual Property Security Agreement are in conflict with the Guarantee and Collateral Agreement or the Credit Agreement, the provisions of the Guarantee and Collateral Agreement or the Credit Agreement shall govern.

OTHER INTELLECTUAL PROPERTY

Worldspan Owned Computer Software

1. Applications developed by Worldspan which operate on IBM Transaction Processing Facility (TPF 4.1) with the High Performance Option (HPO) and which provide the core functions for Deltamatic and Operations Support System (OSS) for Delta Air Lines and the Worldspan global distribution system (GDS).
2. Applications developed by Worldspan which operate on VM and/or IBM OS/390 (MVS) and provide supporting functions for Deltamatic and Operations Support System (OSS) for Delta Air Lines and the Worldspan GDS.¹

¹. With respect to items 1 and 2, the IBM TPF operating system software is a commercially available operating system. However, the applications that run under this operating system are proprietary to Worldspan. There are also Worldspan proprietary extensions to the operating system. Unlike most operating systems, where the licensee only receives an executable copy of the program, IBM supplies the source code with TPF, since many operators of TPF platforms customize the operating system itself for specific purposes.

3. The LINK application is an internally developed application written using MS Visual Basic. The application manages the provisioning process for travel agencies. In addition, LINK is the central point for maintaining the Worldspan Customer Information Database. The LINK application resides on the Desktop utilizing DB2 on the OS/390 complex.
4. Configuration Manager, which runs in the OS/390-DB2 environment, is an internally developed application that maintains a repository of communications data for the Worldspan GDS system. It supports an LU6.2 link to the Communication Front Ends and the TPF system for real-time communication configuration updates.
5. The PMGT application is an internally developed application that is used for time reporting and project management reporting. The application is written in COBOL / CICS and utilizes DB2 on the OS/390 complex.
6. To the extent permitted under license from Siebel and/or applicable law, applications developed by Worldspan which work with the eTrak application which is commercially available Siebel Service software. The eTrak application is fully integrated with the Cisco CTI application and the Lucent G3 Definity switch. In addition, eTrak is integrated with other internal applications and an external maintenance vendor. The application resides on the desktop, with NT servers performing background processing. The application utilizes an Oracle database residing in the HP-UX cluster. ETrak is also available in a Thin Client version through the Intranet.
7. To the extent permitted under license from Cisco and/or applicable law, applications developed by Worldspan which work with the Cisco CTI application and which allows intelligent routing of calls made to the Worldspan Help Desk. The routing is based on a productivity rating code assigned to the customer base on annual bookings. Calls are routed to queues for the appropriate area of the Help Desk. The CTI application resides in an NT cluster dedicated to the CTI environment. The system utilizes an MS SQL Server database running on an NT server in the CTI cluster. CTI environment is located in Kansas City.²
8. To the extent permitted under license from Siebel and/or applicable law, applications developed by Worldspan which work with the Defect Tracking application which is commercially available Siebel Quality software. The Defect Tracking application is fully integrated with the Siebel Service module used in the eTrak application. The Defect Tracking application is used by Worldspan's software development organization to track both pre and post release software defects. The application resides on the desktop, with NT servers performing background processing. The application utilizes an Oracle

² Note that the Cisco CTI base program is commercially available software. It has been customized to Worldspan's needs through tools supplied by Cisco. The customizations are proprietary to Worldspan, whereas the base Cisco CTI software is not.

database residing in the HP-UX cluster. Defect Tracking is also available in a Thin Client version through the Intranet.

9. To the extent permitted under license from Siebel and/or applicable law, applications developed by Worldspan which work with the Insight application which is commercially available Siebel Sales Force Automation software. The InSight application is fully integrated with Siebel Service modules used in the eTrak application. The InSight application is utilized by the Worldspan Sales organization to track customer contacts and Sales Reps. Activities. The InSight application contains a large volume of booking and IATA information for existing and potential customers. The application resides on a MS Windows desktop, with NT servers performing background processing. The application utilizes an Oracle database residing in the HP-UX cluster.
10. The Orders & Update application is an internally developed application that allow travel agencies to process changes in hardware configurations and services. The application is Web based and is available to the travel agencies through the Worldspan Extranet. The application utilizes MS Active Server Pages and resides on a NT server at the Worldspan Data Center. Orders & Updates accesses a DB2 database residing in the OS/390 complex.
11. To the extent permitted under license from GEAC and/or applicable law, applications developed by Worldspan which work with the Financial and Administrative System which include the financial system such as General Ledger, Account Payable and Accounts Receivable and administrative systems such a Human Resources and Payroll. The applications reside in the OS/390 complex and utilize a combination of VSAM and DB2 databases.
12. To the extent permitted under license from GEAC and/or applicable law, applications developed by Worldspan which work with the Materiel Management system which include a number of applications such as Inventory Control, Shipping and Fixed Assets. The applications reside in the OS/390 complex and utilize a combination of VSAM and DB2 databases.
13. The PABILL application is a custom application written by Worldspan utilizing Informix FourGL code. The application receives data from the Offline TPF processing group and prepares the data for invoicing of the Participating Airlines. The application allows the Finance group to make adjustment prior to printing the invoices. The application resides on the HP-UX complex and utilizes an Informix database.
14. Worldspan for Windows.³ Worldspan's original Windows-based desktop terminal emulation used at travel agencies worldwide. When introduced, attached to a local hardware-based gateway. Currently uses a local software-based gateway.

³. Note that items 14 – 29 are Worldspan proprietary domestic Travel Distribution client systems (i.e. proprietary software deployed at travel agencies).

15. **Worldspan Go! Windows** browser-based line of terminal emulation products. Originally comprised of the Worldspan for Windows client with separate browser access to Web resources in the Worldspan data center. Subsequently fielded with the terminal emulation contained within the browser.
16. **Worldspan Go! Via the Internet.** Windows browser-based application that provides travel agency access using customer-owned hardware across the public Internet.
17. **Worldspan Go! Fax.** An Internet fax service that allows users to send faxes via e-mail from their desktop.
18. **FastMail and EZ Fast Mail** which is software that enables a customer to sign up and use the EasyLink service, a service available at all agency terminals that accepts requests to send a fax of an Itinerary Invoice directly from the Worldspan host, through the EasyLink service, to the customer.
19. **Worldspan on the Web.** Enables travel agency subscribers to search for fares and book air travel over the Web. Internet booking data is integrated into the host PNR and is available to back-office systems.
20. Applications developed by Worldspan which extend and enhance Trip Manager functionality. Trip Manager is a browser-based self-booking tool for corporate travelers, which can be accessed via the Internet. It provides real-time trip planning capabilities for air, car and hotel reservations and applies corporate travel policies and preferences.
21. Applications developed by Worldspan which extend and enhance Trip Manager for Government functionality. Trip Manager for Government is a version of Trip Manager tailored for government travelers in the U.S. Uses government contracted rates and other real-time data. On-line reservations are automatically queued to the official government-designated travel agency for quality assurance and ticketing.
22. **My Trip and More.** A Web site that provides travelers with secure Internet access to travel itineraries booked with a Worldspan travel agent.
23. **ScriptPro.** A high-level programming language provided with Worldspan for Windows and Worldspan Go! that enables scriptwriters to produce Windows-based applications customized to the needs of an agency.
24. **Dates and Destinations.** A global Internet booking product for travel agencies that currently have a Web site. The product gives consumers a means to view fares and schedules or book reservations via an exclusive hyperlink on the agency site.
25. **Worldspan GO! Cruise.** Browser-based access to several top cruise lines around the world from the travel agent's desktop. It provides cruise information and booking features, enabling travel agents to create cruise itineraries for their clients.

26. **Data Designs.** Various structured message interfaces to the Worldspan host: Data Interface Records (DIR); Universal Messaging (EDIFACT format) and XML Pro.
27. **Worldspan Wired.** A structured message interface to the Worldspan host by an e-commerce customer.
28. **Egateway.** The Enterprise Gateway product located at the Worldspan Data Center and allows direct attachment of Worldspan Go! browser-based terminal emulation clients. It provides redundancy and eliminates the need for a local gateway product.
29. **WebAirFare.** An Internet fare search product that enables customers to quickly find the best airfare options from multiple Internet sites, including published fares from Worldspan Power Shopper.
30. A version of Worldspan for Windows which operates with the Datalex Gateway product. Combines Worldspan for Windows (4.1) and IP encapsulated in X25 which enables Worldspan to provide Email & Internet access to agents.⁴
31. **Worldspan for Windows ACG.** Asynchronous Dial version of Worldspan for Windows. Used in low production agencies or as a quick start option.
32. **WORLD Dial Link.** Used in single workstation on Dial up via SITA/Compuserve.
33. **Dial Worldspan (Mayslink/Cookslink/GPAirLink/Co-Op AirLink).** This family of products is based on World Dial Link, but make use of full Worldspan database. Agencies use this product in LAN environments with ticket printing. Host communications are X25 with either Eicon Netware servers or customized X25/MUX's delivering ASYNC datastreams.
34. **G0! Res via the Internet.** Browser based product giving access to the Worldspan mainframe. Also has scripting functionality.
35. **Commercial WORLD.** Used whenever practical for dial-in situations.
36. **WORLD STP.** Dial Link derivative STP product.
37. **Travel Assist.** User-friendly agency product providing connectivity to Worldspan host via async (Dial Link or ACG) and on X25 via regular Worldspan for Windows Gateway.
38. **Messaging Solutions.** Used by Worldspan largest traditional travel agency chains and to power most of Worldspan's e-Commerce Internet Booking Engines.

⁴. Note that items 30 –37 are Worldspan proprietary Travel Distribution client systems used in Europe, Middle East, Africa and Asia (“EMEEA”).

SMI. Worldspan Proprietary Messaging System based on a Risk Platform and used by many of Europe's leading agencies.

EDI. Industry Standard messaging solution hosted at our European Middle Tier Server Complex.

XML. XML front end interface for the SMI messaging system

API. Allows customer to develop their own GUI and screen scrape responses from the Worldspan Host.

39. Various Worldspan IBE (Internet Booking Engine) private label products.
40. Business Objects Servers (BOS)
41. Applications developed by Worldspan that extend and/or enhance the Datalex Travel Button functionality.
42. APT (Queue automation for RES system)
43. Worldspan BFS software developed by Worldspan as defined in the Amended and Restated Development Agreement, dated June 28, 2001, between Expedia, Inc. and Worldspan, L.P.
44. Software transferred by Northwest, Delta, Trans World Airlines, PARS Service Partnership, or their Affiliates, to Worldspan.
45. Software developed for Worldspan and owned by Worldspan pursuant to the TCP/IP and ASTOX Software Agreement dated January 29, 1998 between Worldspan, L.P. and Novus Corporation.
