INTELLECTUAL PROPERTY SECOND LIEN SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECOND LIEN SECURITY AGREEMENT (as amended, amended and restated, supplemented or otherwise modified from time to time, the "IP Security Agreement") dated May 4, 2007, is made by the Persons listed on the signature pages hereof (collectively, the "Grantors") in favor of LEHMAN COMMERCIAL PAPER INC., as collateral agent (the "Collateral Agent") for the Secured Parties (as defined in the Second Lien Term Loan Agreement referred to below).

WHEREAS, Dresser, Inc., a Delaware corporation, together with the Initial Borrower and each Subsidiary Loan Party (each as defined in the Second Lien Term Loan Agreement), have entered into a Second Lien Term Loan Agreement dated as of May 4, 2007 (said Agreement, as it may hereafter be amended, amended and restated, supplemented or otherwise modified from time to time, being the "Second Lien Term Loan Agreement") with Dresser Intermediate Holdings, Inc. (f/k/a CRFRC-D Holdings, Inc.), a Delaware corporation, CRFRC-D Merger Sub, Inc., a Delaware corporation, the Lenders party thereto, Lehman Commercial Paper Inc., as administrative agent and as collateral agent (in such capacity, the "Collateral Agent") for the Lenders, Morgan Stanley Senior Funding, Inc., as syndication agent, Lehman Brothers Inc., Morgan Stanley & Co. Incorporated, Credit Suisse Securities (USA) LLC and UBS Securities LLC, as joint lead arrangers and joint bookrunners, and Credit Suisse Securities (USA) LLC and UBS Securities LLC, as co-documentation agents. Terms defined in the Second Lien Term Loan Agreement and not otherwise defined herein are used herein as defined in the Second Lien Term Loan Agreement.

WHEREAS, as a condition precedent to the making of Loans by the Lenders under the Second Lien Term Loan Agreement, each Grantor has executed and delivered that certain Second Lien Guarantee and Collateral Agreement dated May 4, 2007 made by the Grantors to the Collateral Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Second Lien Guarantee and Collateral Agreement").

WHEREAS, under the terms of the Second Lien Guarantee and Collateral Agreement, Grantors have granted a second priority security interest in, among other property, certain intellectual property of the Grantors to the Collateral Agent for the ratable benefit of the Secured Parties, and have agreed as a condition thereof to execute this IP Security Agreement covering such intellectual property for recording with the U.S. Patent and Trademark Office, the United States Copyright Office and other similar offices in any State of the United States or any political subdivision thereof.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Collateral Agent for the ratable benefit of the Secured Parties a security interest in all of such Grantor's right, title and interest in and to the following (the "Collateral"):

- the patents and patent applications set forth in Schedule A hereto (the “Patents”) and all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing;
- the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law), together with the goodwill symbolized thereby (the “Trademarks”);
- all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the “Copyrights”);
- any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION 2. Security for Obligations. The grant of a security interest in the Collateral by each Grantor under this IP Security Agreement secures the payment or performance, as the case may be, in full of all Second Lien Obligations of such Grantor now or hereafter existing under or in respect of the Loan Documents, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, out-of-pocket costs, expenses or otherwise.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Second Lien Guarantee and Collateral Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Second Lien Guarantee and Collateral Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein.

SECTION 6. Intercreditor Agreement. Notwithstanding anything herein to the contrary, the lien and security interest granted to the Collateral Agent pursuant to this IP Security Agreement or any other Loan Document and the exercise of any right or remedy by the Collateral Agent hereunder or under any other Loan Document are subject to the provisions of the Intercreditor Agreement, dated as of May 4, 2007 (as amended, restated, supplemented or otherwise modified from time to time in accordance with the terms thereof, the “Intercreditor Agreement”), among the Initial Borrower, Dresser, Inc., D.I. Luxembourg S.A.R.L., the Collateral Agent, the First Lien Collateral Agent and certain other Persons party or that may become party thereto from time to time. In the event of any conflict between the terms of the Intercreditor Agreement, this IP Security Agreement and any other Loan Document, the terms of the Intercreditor Agreement shall govern and control with respect to any right or remedy. Without limiting the generality of the foregoing, and notwithstanding anything herein to the contrary, all rights and remedies of the Collateral Agent (and the Secured Parties) shall be subject to the terms of the Intercreditor Agreement, and until the Discharge of the First Lien Obligations (as defined in the Intercreditor Agreement), (i) no Loan Party shall be required hereunder or under any other Loan Document to take any action that is inconsistent with such Loan Parties’ obligations under the First Lien Loan Documents and (ii) any obligation of any Loan Party hereunder or under any other Loan Document with respect to the delivery or control of any Collateral, the novation of any lien on any certificate of title, bill of lading or other document, the giving of any notice to any bailee or other Person, the provision of voting rights or the obtaining of any consent of any Person shall be deemed to be satisfied if the Loan Party complies with the requirements of the similar provision of the applicable First Lien Loan Document. Until the Discharge of the First Lien Obligations (as defined in the Intercreditor Agreement), the Collateral Agent may not require any Loan Party to take any action with respect to the creation, perfection or priority of its security interest, whether pursuant to the express terms hereof or of any other Loan Document or pursuant to the further assurances provisions hereof or any other Loan Document, unless the First Lien Collateral Agent shall have required such Loan Party to take similar action, and delivery of any Collateral to the First Lien Collateral Agent pursuant to the First Lien Loan Documents shall satisfy any delivery requirement hereunder or under any other Loan Document.

SECTION 7. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York.

IN WITNESS WHEREOF, the parties hereto have duly executed this Agreement as of the day and year first above written.
