WHEREAS, reference is made to that certain Intercreditor Agreement dated as of August 31, 2007 (the “Intercreditor Agreement”), and entered into by and between the ABL Collateral Agent and the Term Loan Collateral Agent;

WHEREAS, to induce the lenders to enter into the ABL Credit Agreement, dated as of August 31, 2007, and the Term Loan Credit Agreement, dated as of August 29, 2007, as applicable, (ABL Credit Agreement and the Term Loan Credit Agreement together the “Credit Agreements”), the Grantor entered into the ABL Security Agreement and the Term Loan Security Agreement pursuant to which the Grantor is required to enter into this IP Security Agreement;

WHEREAS, the Grantor is executing and delivering this IP Security Agreement pursuant to the terms of the Credit Agreements which induced the lenders to extend credit to the U.S. Borrower under the Credit Agreements; and

WHEREAS, the Grantor has duly authorized the execution, delivery and performance of this IP Security Agreement.

NOW, THEREFORE, for and in consideration of the premises, and of the mutual covenants herein contained, the Grantor and the ABL Collateral Agent, and Term Loan Collateral Agent on behalf of itself and each Secured Party (and each of their respective successors or assigns) under the Credit Agreements, hereby agree as follows:

SECTION I. Defined Terms. Terms used but not defined herein shall have the meanings set forth in the Collateral Agreements.

SECTION II. Sub-Agent Agreement and Grant of Collateral. The ABL Collateral Agent on behalf of the ABL Secured Parties hereby appoints the Term Loan Collateral Agent as its agent for purposes of perfecting its security interest in the Collateral (as defined below) on behalf of the ABL Secured Parties by filing of this IP Security Agreement (and any supplements hereto or subsequent agreements with respect to Collateral) with the United States Patent and Trademark Office (the “USPTO”) and the United States Copyright Office (the “USCO”), as appropriate. The Term Loan Collateral Agent hereby agrees to act as the agent of the ABL Collateral Agent and Secured Parties under the ABL Security Agreement with respect to perfection of

the ABL Collateral Agent's security interest in such Collateral and such filings; it being understood that priority of the security interests in such Collateral is governed by the Intercreditor Agreement.

SECTION III. Grant of Security for Term Loan. The Grantor hereby grants to the Term Loan Collateral Agent and its successors and permitted assigns for the benefit of the Secured Parties under the Term Loan Security Agreement, the ABL Collateral Agent and the Secured Parties under the ABL Security Agreement, a security interest in all right, title and interest in or to any and all of the following assets and properties now owned or at any time hereafter acquired by such Grantor or in which such Grantor now has or at any time in the future may acquire any right, title or interest (the "Collateral"):

(a) all the patents and patent applications of such Grantor including those set forth in Schedule A hereto (the "Patents");

(b) the trademark and service mark registrations and applications set forth in Schedule B hereto (except for "intent-to-use" applications for trademark or service mark registrations filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, unless and until an Amendment to Allege Use or a Statement of Use under Sections 1(c) and 1(d) of the Lanham Act has been filed, to the extent that any assignment of an "intent-to-use" application prior to such filing would violate the Lanham Act), together with the goodwill symbolized thereby (the "Trademarks");

(c) all copyrights, whether registered or unregistered, now owned or hereafter acquired by such Grantor, including, without limitation, the copyright registrations and applications and exclusive copyright licenses set forth in Schedule C hereto (the "Copyrights");

(d) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;

(e) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(f) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing.

SECTION IV. Discharge and Assignment of Title. Upon the Discharge of Term Obligations, (i) in the event the Term Loan Collateral Agent and the ABL Collateral Agent are not the same entity, the Term Loan Collateral Agent shall execute all documents necessary or reasonably requested by the ABL Collateral Agent to assign all rights and obligations hereunder

to the ABL Collateral Agent and (ii) in the event the Term Loan Collateral Agent and the ABL Collateral Agent are the same entity, the Term Loan Collateral Agent's interest in all entries with the USPTO or USCO shall be automatically deemed assigned to the ABL Collateral Agent. The Term Loan Collateral Agent, the ABL Collateral Agent and the Grantor each agree that, subject to the immediately preceding sentence, each entry in the USPTO or USCO with respect to any Collateral shall name the Term Loan Collateral Agent as secured party for the benefit of the Secured Parties under the Term Loan Credit Agreement, the ABL Collateral Agent and the Secured Parties under the ABL Credit Agreement in such Collateral; provided that, absent gross negligence or willful misconduct on the part of the Term Loan Collateral Agent, the Term Loan Collateral Agent shall not have any duty or liability of any kind whatsoever in connection with being named as such lienholder, including, without limitation, to protect or preserve any rights pertaining to any of the Collateral for the Secured Parties under the ABL Credit Agreement.

SECTION V. Recordation. The Grantor authorizes and requests that the United States Register of Copyrights, the United States Commissioner for Patents and the United States Commissioner for Trademarks and any other applicable officer in any successor office or any similar office in any other country record this IP Security Agreement, if applicable, in accordance with the Credit Agreements.

SECTION VI. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

SECTION VII. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Collateral Agreements and the Intercreditor Agreement. The Grantor does hereby acknowledge and confirm that the rights and remedies of each Collateral Agent are more fully set forth in the Collateral Agreements and the Intercreditor Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event that any provision of this IP Security Agreement is in conflict with any of the Term Loan Collateral Agreement, the ABL Collateral Agreement and the Intercreditor Agreement, the provisions of the Term Loan Collateral Agreement, the ABL Collateral Agreement or the Intercreditor Agreement, as the case may be, shall govern.

SECTION VIII. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York without regard to conflicts of laws principles.

IN WITNESS WHEREOF, the parties hereto have caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first above written.
