SECURED PARTY IS SUBJECT TO A SUBORDINATION AGREEMENT DATED AS OF THE DATE HEREOF WITH VENTURE LENDING & LEASING V, INC. (AS AMENDED, MODIFIED, SUPPLEMENTED, RESTATED OR REPLACED, THE "SUBORDINATION AGREEMENT") AND ENFORCEMENT OF THIS AGREEMENT IS SUBJECT TO THE SUBORDINATION AGREEMENT.

INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (this "Agreement"), is dated as of October 2, 2009, by and between PEAK SURGICAL, INC., a Delaware corporation ("Debtor"), and MEDTRONIC, INC., a Minnesota corporation (the "Secured Party").

AGREEMENTS:

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Grant of Security Interest. As collateral security for the prompt and complete payment and performance of all of Debtor's present or future Obligations (as defined in the Security Agreement, dated the date hereof, by and between the Debtor and the Secured Party, as it may be amended, modified, supplemented, restated or replaced from time to time), Debtor hereby grants a security interest and mortgage to Secured Party, as security, in and to Debtor's entire right, title and interest in, to and under the following intellectual property, now owned or hereafter acquired by Debtor or in which Debtor now holds or hereafter acquires any interest (all of which shall collectively be called the "Collateral" for purposes of this Agreement):

(a) Any and all copyrights, whether registered or unregistered, held pursuant to the laws of the United States, any State thereof or of any other country; all registrations, applications and recordings in the United States Copyright Office or in any similar office or agency of the United States, and State thereof or any other country; all continuations, renewals, or extensions thereof; and any registrations to be issued under any pending applications, including without limitation those set forth on Exhibit A attached hereto (collectively, the "Copyrights");

(b) All letters patent of, or rights corresponding thereto in, the United States or any other country, all registrations and recordings thereof, and all applications for letters patent of, or rights corresponding thereto in, the United States or any other country, including, without limitation, registrations, recordings and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or any other country; all reissues, continuations, continuations-in-part or extensions thereof; all petty patents, divisionals, and patents of addition; and all patents to be issued under any such applications, including without limitation the patents and patent applications set forth on Exhibit B attached hereto (collectively, the "Patents");

(c) All trademarks, trade names, corporate names, business names, trade styles, service marks, logos, other source or business identifiers, prints and labels on which any of the foregoing have appeared or appear, designs and general intangibles of like nature, now existing or hereafter adopted or acquired, all registrations and recordings thereof, and any applications in connection therewith, including, without limitation, registrations, recordings and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or any other country or any political subdivision thereof, and reissues, extensions or renewals thereof, and the entire goodwill of the business of Debtor connected with and symbolized by such trademarks, including without limitation those set forth on Exhibit C attached hereto (collectively, the "Trademarks");

(d) Any and all claims for damages by way of past, present and future infringement of any of the rights included above, with the right, but not the obligation, to sue for and collect such damages for said use or infringement of the intellectual property rights identified above;

(e) All licenses or other rights to use any of the Copyrights, Patents or Trademarks, and all license fees and royalties arising from such use to the extent permitted by such license or rights;

(f) All amendments, renewals and extensions of any of the Copyrights, Trademarks or Patents; and

(g) All proceeds of the foregoing, including without limitation all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing.

Notwithstanding the foregoing the term "Collateral" shall not include: (a) "intent-to-use" trademarks at all times prior to the first use thereof, whether by the actual use thereof in commerce, the recording of a statement of use with the United States Patent and Trademark Office or otherwise, but only to the extent the granting of a security interest in such "intent to use" trademarks would affect Borrower's rights to such trademarks under to applicable law or (b) any contract, instrument or chattel paper in which Debtor has any right, title or interest if and to the extent such contract, instrument or chattel paper includes a provision containing a restriction on assignment such that the creation of a security interest in the right, title or interest of Debtor therein would be prohibited and would, in and of itself, cause or result in a default thereunder enabling another person party to such contract, instrument or chattel paper to enforce any remedy with respect thereto; provided, however, that the foregoing exclusion shall not apply if (i) such prohibition has been waived or such other person has otherwise consented to the creation hereunder of a security interest in such contract, instrument or chattel paper, or (ii) such prohibition would be rendered ineffective pursuant to Sections 9-407(a) or 9-408(a) of the UCC, as applicable and as then in effect in any relevant jurisdiction, or any other applicable law (including the Bankruptcy Code) or principles of equity); provided further that immediately upon the ineffectiveness, lapse or termination of any such provision, the term "Collateral" shall include, and Debtor shall be deemed to have granted a security interest in, all its rights, title and interests in and to such contract, instrument or chattel paper as if such provision had never been in effect; and provided further that the foregoing exclusion shall in no way be construed so as to limit, impair or otherwise affect Secured Party's unconditional continuing security interest in and to all rights, title and interests of Debtor in or to any payment obligations or other rights to receive monies due or to become due under any such contract, instrument or chattel paper and in any such monies and other proceeds of such contract, instrument or chattel paper.

2. Covenants and Warranties. Debtor represents, warrants, covenants and agrees as follows:

(a) Debtor is now the sole owner of the Collateral, except for Permitted Liens that are otherwise permitted under Section 9.11 of the Convertible Loan Agreement (the "Credit Agreement") dated the date hereof, by and between the Debtor and the Secured Party, as it may be amended, modified, supplemented, restated or replaced from time to time;

(b) During the term of this Agreement, Debtor will not transfer or otherwise encumber any interest in the Collateral, except for Permitted Liens that are otherwise permitted under Section 9.11 of the Credit Agreement;

(c) To its knowledge, each of the Patents is valid and enforceable, and no part of the Collateral has been judged invalid or unenforceable, in whole or in part, and no claim has been made that any part of the Collateral violates the rights of any third party;

(d) Debtor shall deliver to Secured Party within thirty (30) days of the last day of each fiscal quarter, a report signed by Debtor, in form reasonably acceptable to Secured Party, listing any applications or registrations that Debtor has made or filed in respect of any patents, copyrights or trademarks and the status of any outstanding applications or registrations. Debtor shall promptly advise Secured Party of any material change in the composition of the Collateral, including but not limited to any subsequent ownership right of the Debtor in or to any Trademark, Patent or Copyright not specified in this Agreement;

(e) Debtor shall use reasonable commercial efforts to (i) protect, defend and maintain the validity and enforceability of any material Trademarks, Patents and Copyrights (ii) promptly advise Secured Party in

writing of known material infringements of any material Trademarks, Patents and/or Copyrights and (iii) not allow any material Trademarks, Patents or Copyrights to be abandoned, forfeited or dedicated to the public (except for natural expiration or termination at the end of the term if such expiration or termination is in Debtor's best business interest) without the written consent of Secured Party, which consent shall not be unreasonably withheld;

(f) Debtor shall apply for registration on an expedited basis (to the extent not already registered) with the United States Patent and Trademark Office or the United States Copyright Office, as applicable: (i) those intellectual property rights listed on Exhibits A, B and C hereto within sixty (60) days of the date of this Agreement; and (ii) those additional intellectual property rights developed or acquired by Debtor from time to time in connection with any product or service, prior to the sale or licensing of such product or the rendering of such service to any third party (including without limitation revisions or additions to the intellectual property rights listed on such Exhibits A, B and C), except with respect to such rights that Debtor determines in its sole but reasonable commercial judgment need not be registered to protect its own business interests. Debtor shall, from time to time, execute and file such other instruments, and take such further actions as Secured Party may reasonably request from time to time to perfect or continue the perfection of Secured Party's interest in the Collateral. Debtor shall give Secured Party notice of all such applications or registrations; and

(g) Debtor shall use its reasonable best efforts to avoid the inclusion in any material license agreement to which it becomes a party of any provisions that are enforceable under applicable law that could reasonably be expected to prevent the creation of a security interest in Debtor's rights and interests in any property included within the definition of the Collateral acquired under such contracts.

3. Further Assurances; Attorney in Fact.

(a) On a continuing basis, Debtor will make, execute, acknowledge and deliver, and file and record in the proper filing and recording places in the United States, all such instruments, including appropriate financing and continuation statements and collateral agreements and filings with the United States Patent and Trademark Office and the Register of Copyrights, and take all such action as may reasonably be deemed necessary or advisable, or as reasonably requested by Secured Party, to perfect Secured Party's security interest in all Copyrights, Patents and Trademarks and otherwise to carry out the intent and purposes of this Agreement, or for assuring and confirming to Secured Party the grant or perfection of a security interest in all Collateral.

(b) Debtor hereby irrevocably appoints Secured Party as Debtor's attorney-in-fact, with full authority in the place and stead of Debtor and in the name of Debtor, from time to time in Secured Party's discretion, to take any action and to execute any instrument which Secured Party may reasonably deem necessary or advisable to accomplish the purposes of this Agreement, including (i) to modify, in its sole discretion, this Agreement without first obtaining Debtor's approval of or signature to such modification by amending Exhibits A, B and C, hereof, as appropriate, to include reference to any right, title or interest in any Copyrights, Patents or Trademarks acquired by Debtor after the execution hereof or to delete any reference to any right, title or interest in any Copyrights, Patents or Trademarks in which Debtor no longer has or claims any right, title or interest, (ii) to file, in its sole discretion, one or more financing or continuation statements and amendments thereto, relative to any of the Collateral without the signature of Debtor where permitted by law, and (iii) after the occurrence of an Event of Default, to transfer the Collateral into the name of Secured Party or a third party to the extent permitted under the California Uniform Commercial Code.

4. Events of Default. The occurrence of any of the following shall constitute an Event of Default under this Agreement:

(a) An Event of Default under the Credit Agreement; or

(b) Debtor breaches any warranty or agreement made by Debtor in this Agreement and, if capable of being cured, such breach is not cured within 30 days after the sooner to occur of Debtor's receipt of notice of such breach from Secured Party or the date on which such breach first becomes known to any officer of Debtor; provided, however that if such breach is not capable of being cured within such 30-day period and Debtor timely notifies Secured Party of such fact and Debtor diligently pursues such cure, then the cure period shall be extended to the date requested in Debtor's notice but in no event more than 90 days from the initial breach;

provided, further, that such additional 60-day opportunity to cure shall not apply in the case of any failure to perform or observe any covenant which has been the subject of a prior failure within the preceding 180 days or which is a willful and knowing breach by Debtor.

5. Amendments. This Agreement can be waived, modified, amended, terminated or discharged, and the security interest granted herein can be released, only explicitly in a writing signed by both parties; provided, however, that Section 7 of this Agreement shall not be waived, modified, amended, terminated or discharged without the prior written consent of Venture Lending & Leasing V, Inc. ("VLL5"). A waiver signed by both parties shall be effective only in the specific instance and for the specific purpose given.

6. Counterparts. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original but all of which together shall constitute the same instrument.

7. Subordination. This Agreement and each of the covenants, obligations and other requirements of the Debtor hereunder, and the rights of the Secured Party hereunder shall in all respects be subject to the terms and conditions of the Subordination Agreement. In the event of any inconsistency or conflict between the provisions of this Agreement or any document or instrument executed and delivered in connection with this Agreement, including, without limitation, the Credit Agreement, the Note, the Security Agreement and the other Loan Documents (as such terms are defined in the Credit Agreement), and the provisions of the Subordination Agreement, the provisions of the Subordination Agreement shall prevail. VLL5 is an intended third party beneficiary of the terms of this Section 7.
