INTELLECTUAL PROPERTY SECURITY AGREEMENT (TERM LOAN)

THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT (TERM LOAN) (as amended, restated or otherwise modified from time to time, this "Intellectual Property Security Agreement"), dated as of October 1, 2010, is made by each of the grantors listed on the signature pages hereto and each additional party which becomes a grantor hereto pursuant to Section 6 hereof (collectively, "Grantors" and each individually, a "Grantor"), in favor of MORGAN STANLEY SENIOR FUNDING, INC., as collateral agent and administrative agent (in such capacity, together with any successor and permitted assigns, "Agent") for the Secured Parties.

WITNESSETH:

WHEREAS, pursuant to that certain Term Loan Credit Agreement, dated as of the date hereof (including, all annexes, exhibits and schedules thereto, as from time to time amended, restated, supplemented or otherwise modified the "Credit Agreement") by and among Grantors, the other Persons named therein as Credit Parties, Agent, and the Lenders signatory thereto from time to time, the Lenders have agreed to make certain Term Loans under the terms of the Credit Agreement;

WHEREAS, each Grantor will derive direct and indirect economic benefits from the making of the Term Loans and other financial accommodations provided to the Borrower pursuant to the Credit Agreement; and

WHEREAS, in order to induce Agent and the Secured Parties to enter into the Credit Agreement, the other Loan Documents, the Secured Hedge Agreements and to provide Bank Products and to induce Agent and the Lenders to enter into the Credit Agreement and other Loan Documents and to induce the Lenders to make the Term Loans as provided for in the Credit Agreement, Grantors desire to grant a Lien on the Intellectual Property Collateral (as defined below) to Agent, for the benefit of Agent and Lenders, to secure all of the Obligations.

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. DEFINED TERMS. All capitalized terms used but not otherwise defined herein have the meanings given to them in the Credit Agreement.

"Secured Parties" means Administrative Agent, Lenders and Hedge Banks.

2. GRANT OF SECURITY INTEREST IN INTELLECTUAL PROPERTY COLLATERAL. (a) To secure the prompt and complete payment, performance and observance of all the Obligations, each Grantor hereby grants to Agent, for the benefit of the Secured Parties, a Lien upon all of its right, title and interest in, to and under the following, whether now owned by or owing to, or hereafter created or acquired by or arising in favor of such Grantor, and

whether owned or consigned by or to, or licensed from or to, such Grantor, and regardless of where located (collectively, the “Intellectual Property Collateral”):

(i) all of its Patents, including those referred to on Schedule I hereto, and Patent Licenses to which it is a party;

(ii) all of its Trademarks (but excluding any “intent to use” Trademark applications for which a statement of use has not been filed at, and accepted by, the United States Patent and Trademark Office (but only until such statement is filed at, and accepted by, the United States Patent and Trademark Office), including those referred to on Schedule II hereto, and Trademark Licenses to which it is a party;

(iii) all of its Copyrights and exclusive Copyright Licenses to which it is a party, including those referred to on Schedule III hereto, and other Copyright Licenses to which it is a party; and

(iv) all products and proceeds of the foregoing, including, without limitation, any claim by such Grantor against third parties for past, present or future (A) infringement of any Patent owned by such Grantor or Patent licensed under any Patent License to which it is a party, (B) infringement or dilution of any Trademark owned by such Grantor or Trademark licensed under any Trademark License to which it is a party, (C) injury to the goodwill associated with any Trademark owned by such Grantor or any Trademark licensed under any Trademark License to which it is a party, and (D) infringement of any Copyright owned by such Grantor or Copyright licensed under any Copyright License to which it is a party.

(b) In addition, to secure the prompt and complete payment, performance and observance of the Obligations and in order to induce Lenders as aforesaid, each Grantor hereby grants to Agent, for the benefit of Secured Parties, a right of setoff, against the property of such Grantor held by Agent or any Secured Party, consisting of property described above in Section 2(a) now or hereafter in the possession or custody of or in transit to Agent or any Secured Party, for any purpose, including safekeeping, collection or pledge, for the account of such Grantor, or as to which such Grantor may have any right or power.

3. SECURITY AGREEMENT. The security interests granted pursuant to this Intellectual Property Security Agreement are granted in conjunction with the security interests granted to Agent pursuant to the Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Agent with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event of any conflict between the terms and conditions of this Intellectual Property Security Agreement and those of the Security Agreement, the terms and conditions of the Security Agreement shall govern and control.

4. REINSTATEMENT. This Intellectual Property Security Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against any Grantor or Credit Party for liquidation or reorganization, should any Grantor or

Credit Party become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of any Grantor's or Credit Party's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

5. NOTICES. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give or serve upon another any such communication with respect to this Intellectual Property Security Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be in writing and shall be addressed to the party to be notified at the address set forth in the Credit Agreement (or such other address as may be substituted by notice given in the manner required by Section 12.10 of the Credit Agreement), and given in the manner required by Section 12.10 of the Credit Agreement.

6. ADDITIONAL GRANTORS. From time to time subsequent to the date hereof, additional Credit Parties may become parties hereto as additional Grantors (each, an "Additional Grantor"), by executing a counterpart of this Intellectual Property Security Agreement substantially in the form of Exhibit A attached hereto. Upon delivery of any such counterpart to Agent, notice of which is hereby waived by the Grantors, each Additional Grantor shall be a Grantor and shall be as fully a party hereto as if such Additional Grantor were an original signatory hereto. Each Grantor expressly agrees that its obligations arising hereunder shall not be affected or diminished by the addition or release of any other Grantor hereunder nor by any election of Agent not to cause any Credit Party to become an Additional Grantor hereunder. This Intellectual Property Security Agreement shall be fully effective as to any Grantor that is or becomes a party hereto regardless of whether any other Person becomes or fails to become or ceases to be a Grantor hereunder.

7. TERMINATION OF THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT. Subject to Section 6 hereof, this Intellectual Property Security Agreement shall terminate upon the Termination Date. Upon such termination, the Agent shall execute, acknowledge and deliver to each Grantor proper documents and instruments as reasonably necessary acknowledging the release of the Lien in the Intellectual Property Collateral under this Intellectual Property Security Agreement.

8. NO STRICT CONSTRUCTION. The parties hereto have participated jointly in the negotiation and drafting of this Intellectual Property Security Agreement. In the event an ambiguity or question of intent or interpretation arises, this Intellectual Property Security Agreement shall be construed as if drafted jointly by the parties hereto and no

presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Intellectual Property Security Agreement.

9. ADVICE OF COUNSEL. Each of the parties represents to each other party hereto that it has discussed this Intellectual Property Security Agreement with its counsel.

10. RELATION TO INTERCREDITOR AGREEMENT. Notwithstanding anything herein to the contrary, the liens and security interests granted pursuant to this Intellectual Property Security Agreement and the exercise of any right or remedy with respect thereto, and certain of the rights hereunder are subject to the provisions of the Intercreditor Agreement, dated as of October 1, 2010 (as amended, restated, supplemented or otherwise modified from time to time, the "Intercreditor Agreement"), among Morgan Stanley Senior Funding, Inc. ("Morgan Stanley") and Bank of America, N.A., as the Revolver Agents, and Morgan Stanley, as the Term Loan Agent, and certain other persons party or that may become party thereto from time to time. In the event of any conflict between the terms of the Intercreditor Agreement and this Intellectual Property Agreement, the terms of the Intercreditor Agreement shall govern and control.

[signature pages follow]

IN WITNESS WHEREOF, each Grantor has caused this Intellectual Property Security Agreement to be executed and delivered by its duly authorized officer as of the date first set forth above.
