SENIOR INTELLECTUAL PROPERTY SECURITY AGREEMENT
(PATENTS AND TRADEMARKS)

This SENIOR INTELLECTUAL PROPERTY SECURITY AGREEMENT (this "Security Agreement"), dated as of April 29, 2011, is made by and among Lund Acquisition Corporation, a Delaware corporation ("Parent"), Lund International Holding Company, a Delaware corporation ("LIHC"), Lund, Inc., a Delaware corporation ("Lund"), and Belmor, Inc., a Delaware corporation ("Belmor" and collectively with Parent, LIHC and Lund, the "Grantors" and each individually, a "Grantor"), in favor of Regions Bank, an Alabama Bank, as administrative agent and collateral agent under the Loan Agreement (defined below) (in such capacity, together with its successors and assigns, the "Agent").

W I T N E S S E T H:

WHEREAS, pursuant to that certain Credit and Security Agreement, dated as of the date hereof (as amended, restated, supplemented, or otherwise modified from time to time, the "Loan Agreement"), by and among the Grantors, the financial institutions from time to time party thereto (the "Lenders"), and the Agent, the Agent and Lenders are willing to make certain financial accommodations available to the Grantors pursuant to the terms and conditions thereof; and

WHEREAS, pursuant to the Loan Agreement, the Grantors are required to execute and deliver to the Agent this Security Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:

1. DEFINED TERMS. All capitalized terms used herein but not otherwise defined herein or in the above recitals have the meanings given to them in the Loan Agreement.

2. GRANT OF SECURITY INTEREST IN COLLATERAL. Each Grantor hereby grants to the Agent (for itself and the other Secured Parties) a continuing first priority security interest in all of such Grantor's right, title, and interest in, to, and under the following, whether presently existing or hereafter created or acquired (collectively, the "Collateral");

(a) (i) all of its trademarks, trade names, corporate names, company names, business names, fictitious business names, trade styles, service marks, certification marks, collective marks, logos and other source or business identifiers, and all goodwill of the business associated therewith, now existing or hereafter adopted or acquired including those referred to in Schedule I hereto, whether currently in use or not, all registrations and recordings thereof and all applications in connection therewith, whether pending or in preparation for filing, whether registered or not, including registrations, recordings and applications in the United States Patent and Trademark Office or in any office or agency of the United States of America or any State thereof or any other country or political subdivision thereof or otherwise, and all common-law rights relating to the foregoing, and (ii) the right to obtain all reissues, extensions or renewals of the foregoing (collectively referred to as the "Trademarks");

(b) all Trademark licenses for the grant by or to such Grantor of any right to use any Trademark, including each Trademark license referred to in Schedule I hereto;

(c) all of its patents, utility models and statutory invention registrations, now existing or hereafter adopted or acquired including those referred to in Schedule II hereto, whether currently in use or not, all registrations and recordings thereof and all applications in connection therewith, whether pending or in preparation for filing, whether registered, issued, granted or not, including registrations, recordings and applications in the United States Patent and Trademark Office or in any office or agency of the United States of America or any State thereof or any other country or political subdivision thereof or otherwise, and all common-law rights relating to the foregoing, and (ii) the right to obtain all reissues, extensions or renewals of the foregoing (collectively referred to as the "Patents");

(d) all other intellectual property of Grantor, including without limitation, all inventions, trade secrets, know-how, domain names (including domain names referred to in Schedule III hereto) or other intellectual property not described in this Security Agreement (collectively referred to as the "Other Intellectual Property");

(e) all Patent licenses for the grant by or to such Grantor of any right to use any Patent, including each Patent license referred to in Schedule II hereto;

(f) all of the goodwill of the business connected with the use of, and symbolized by the items described in, clauses (a), (c) and (d) and, to the extent applicable, clauses (b) and (e);

(g) all goodwill of the business connected with the use of, and symbolized by, each Trademark, each Trademark license, each Patent and each Patent license;

(h) the right to sue third parties for past, present, and future infringements, dilution, damage or for any claim related to or of any Collateral described in clauses (a), (c) and (d) and, to the extent applicable, clauses (b) and (e); and

(i) all products and proceeds of, and rights associated with, the foregoing, including any claim by such Grantor against third parties for past, present or future infringement, dilution, damage or for any claim related to or of any Trademark, Trademark registration, Trademark license, Patent, Patent registration, Patent license or Other Intellectual Property or for any injury to the goodwill associated with the use of any such Trademark or Patent or for breach or enforcement of any Trademark license or Patent license and all rights corresponding thereto throughout the world.

3. SECURITY FOR OBLIGATIONS. This Security Agreement and the security interest created hereby secures the payment and performance of all the Obligations, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Security Agreement secures the payment of all amounts which constitute part of the Obligations and would be owed by any Grantor to the Agent or any other Secured Party whether or not they are unenforceable or not allowable due to the existence of any bankruptcy, insolvency proceeding, receivership, or similar case involving any Grantor.

4. SECURITY AGREEMENT.

(a) This Security Agreement has been executed and delivered by the Grantors for the purpose of registering the security interest of the Agent, for the benefit of the Secured Parties, in the Collateral with the United States Patent and Trademark Office, or other similar office and corresponding offices in other countries of the world. The security interests granted pursuant to this Security Agreement are granted in conjunction with, and not in limitation of, the security interests granted to the Agent and other Secured Parties pursuant to Loan Agreement, and the Loan Agreement (and all rights and remedies of the Agent, Lenders and any other Secured Parties thereunder) shall remain in full force and effect in accordance with its terms. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Agent, Lenders and any other Secured Parties with respect to the security interest in the Collateral made and granted hereby are more fully set forth in the Loan Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. The Loan Agreement (and all rights and remedies of the Agent, Lenders and any other Secured Parties thereunder) shall remain in full force and effect in accordance with its terms. To the extent there is a conflict between the Loan Agreement and this Security Agreement, the Loan Agreement shall control.

(b) The Grantors and the Agent hereby acknowledge and agree that the security interest created hereby in the Collateral shall not include, and the security interest granted herein shall not attach to, any asset (but not the proceeds thereof) subject to a rule of law, statute or regulation or of a lease agreement or any general intangible (including a contract, permit, license or franchise) or a Permitted Lien, where the grant of such security interest would invalidate or constitute a breach or violation of any such rule of law, statute, regulation, lease agreement, or general intangible or agreement or agreements creating or giving rise to such Permitted Lien, provided that the limitation set forth in this sentence shall (x) exist only for so long as such rule of law, statute, regulation, lease agreement or general intangible or agreement and the Permitted Lien created therein continue to be effective (and, upon the cessation, termination, expiration of such rule of law, statute, regulation, lease agreement or general intangible or Permitted Lien, or if any such rule of law, statute or regulation is no longer applicable, the security interest granted herein shall be deemed to have automatically attached to such asset) and (y) not apply with respect to any asset if and to the extent that the prohibition or restriction on the security interest in and to such asset granted in this Security Agreement is rendered ineffective under Sections 9-406, 9 407, 9-408, or 9-409 of the UCC.

5. AUTHORIZATION TO SUPPLEMENT. If any Grantor shall obtain rights to any new Trademarks or Patents, the provisions of the Loan Agreement and this Security Agreement shall automatically apply thereto. Without limiting any Grantor's obligations under this Section, each Grantor hereby authorizes the Agent unilaterally to modify this Security Agreement by amending the schedules hereto to include any such new trademark or patent rights of any Grantor. Notwithstanding the foregoing, no failure to so modify this Security Agreement or amend the schedules hereto shall in any way affect, invalidate or detract from the Agent's and other Secured Parties' continuing security interest in all Collateral, whether or not listed on any schedule attached hereto.

6. COUNTERPARTS. This Security Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but all such separate counterparts

shall together constitute but one and the same instrument. In proving this Security Agreement or any other Loan Document in any judicial proceedings, it shall not be necessary to produce or account for more than one such counterpart signed by the party against whom such enforcement is sought. Any signatures delivered by a party by facsimile transmission or by e-mail transmission shall be deemed an original signature hereto.

7. CONSTRUCTION. Unless the context of this Security Agreement or any other Loan Document clearly requires otherwise, references to the plural include the singular, references to the singular include the plural, and the terms “includes” and “including” are not limiting. The words “hereof,” “herein,” “hereby,” “hereunder,” and similar terms in this Security Agreement or any other Loan Document refer to this Security Agreement or such other Loan Document, as the case may be, as a whole and not to any particular provision of this Security Agreement or such other Loan Document, as the case may be. Section, subsection, clause, schedule, and exhibit references herein are to this Security Agreement unless otherwise specified. Any reference in this Security Agreement or in any other Loan Document to any agreement, instrument, or document shall include all alterations, amendments, changes, extensions, modifications, renewals, replacements, substitutions, joinders, and supplements, thereto and thereof, as applicable (subject to any restrictions on such alterations, amendments, changes, extensions, modifications, renewals, replacements, substitutions, joinders, and supplements set forth herein). Any reference herein or in any other Loan Document to the satisfaction or repayment in full of the Obligations shall mean the repayment in full in cash of all Obligations other than unasserted contingent indemnification Obligations. Any reference herein to any Person shall be construed to include such Person’s successors and assigns. Any requirement of a writing contained herein or in any other Loan Document shall be satisfied by the transmission of a Record and any Record so transmitted shall constitute a representation and warranty as to the accuracy and completeness of the information contained therein.

8. GOVERNING LAW. This Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York, without regard to the conflict of law principles thereof.
