WHEREAS, pursuant to the Borrower Debt Assumption Agreement, but only upon the terms and conditions set forth in the Credit Agreement (as defined below) and the other Credit Documents, Sunlogics assumed all of Holdings' rights and obligations as "Borrower" under the Existing Credit Agreement and the other "Credit Documents" as defined therein;

WHEREAS, Sunlogics, the other Credit Parties and the Lenders have determined to amend and restate the Existing Credit Agreement in its entirety on and subject to the terms and conditions set forth in that certain Amended and Restated Credit Agreement (as amended, amended and restated, supplemented or otherwise modified from time to time, the "Credit Agreement"; capitalized terms used but not defined herein shall have the meanings ascribed to them in the Credit Agreement), dated as of June 10, 2011, by and among Sunlogics, as the borrower thereunder (the "Borrower"), Holdings, certain other subsidiaries of the Borrower, as guarantors, the lenders party thereto from time to time (the "Lenders") and the Agent, as administrative agent for the Lenders, such that the loans and all other "Obligations" under the Existing Credit Agreement (including indemnities) outstanding thereunder as of the Closing Date shall be governed by and deemed to be outstanding under the Credit Agreement;

WHEREAS, the Borrower is a member of an affiliated group of companies that includes each other Grantor;

WHEREAS, it is a condition precedent to the making of Loans and other advances under the Credit Agreement that each Grantor and the other Credit Parties (other than Holdings), among other things, shall have executed that certain Amended and Restated Security Agreement dated as of even date herewith (as may be amended, supplemented or otherwise modified from time to time, the "Security Agreement") in favor of the Agent for the benefit of the Lenders and the Agent, to amend and restate the Existing Security Agreement in its entirety; and

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

Section 1. Grant of Security. Each Grantor hereby grants to the Agent for the ratable benefit of the Lenders a security interest in and to all of such Grantor's right, title and interest in and to the following (the "Collateral"):

(a) All now owned or existing or hereafter arising United States and foreign trademark and service mark registrations, applications, and licenses, including without limitation, those set forth on Exhibit A annexed hereto and made a part hereof, together with any goodwill connected with and symbolized by any such trademarks, trademark applications, service marks, registered service marks and service mark applications but excluding any United States intent-to-use trademark application prior to the filing of a "Statement of Use" (pursuant to Section 1(d) of the Lanham Act) or "Amendment to Allege Use" (pursuant to Section 1(c) of the Lanham Act) in connection therewith to the extent that a valid security interest may not be taken in such an intent-to-use trademark application under applicable law (the "Trademarks");

(b) All now owned or existing or hereafter arising United States, international and foreign patents, patent applications, utility models, and statutory invention registrations, including, without limitation, those set forth on Exhibit B annexed hereto and made a part hereof, together with any goodwill connected with and symbolized by any such patents, patent applications, utility models and statutory invention registrations (the "Patents");

(c) any and all reissues, divisions, continuations, continuations-in-part, extensions and reexaminations of the Patents, all inventions in the Patents, and all rights provided in the Patents by international treaties or conventions and all improvements thereto;

(d) any license agreement, permit, authorization or franchise, whether with respect to the Patents or the Trademarks or with respect to the patents, trademarks, trade secrets, computer software or other proprietary right of any other Person, and all income, royalties and other payments now or hereafter due and/or payable to such Grantor with respect thereto, subject, in each case, to the terms of such license agreements, permits, authorizations and franchises (collectively, the "Licenses"); provided, however, that to the extent that the consent of any other party to any of the Licenses is required, under the terms thereof, for the collateral assignment thereof, then this IP Security Agreement shall not affect any collateral assignment of (or otherwise be applied so as to cause a default under) such Licenses;

(e) any and all causes of action for past, present and future infringement or breach of the Trademarks, Patents and any other Collateral, with the right, but not the obligation to sue for and collect, or otherwise recover, damages for such infringement or breach; and

(f) any and all proceeds and products of the foregoing.

Section 2. Representations and Covenants of the Grantors. The representations and warranties set forth in Article IV of the Credit Agreement as they relate to each Grantor or in the Credit Documents to which such Grantor is a party, each of which is hereby incorporated herein by reference, are true and correct, and the Agent and Lenders shall be entitled to rely on each of them as if they were fully set forth herein. Each Grantor shall observe and comply with all covenants provided in Articles V and VI of the Credit Agreement or in any other Credit Documents to which such Grantor is a party, as they relate to such Grantor and/or the Collateral, and shall take, or shall refrain from taking, as the case may be, each action that is necessary to be taken or not taken, as the case may be, so that no Default or Event of Default is caused by the failure to take such action or to refrain from taking such action by such Grantor or any of its Subsidiaries.

Section 3. Submission to Jurisdiction. Each of the Lenders, Agent and Grantors hereby (a) agrees that any action with respect to this IP Security Agreement may be brought in the courts of the State of New York or of the United States of America for the Southern District of New York, (b) accepts for itself and in respect of its property, generally and unconditionally, the exclusive jurisdiction of such courts, (c) irrevocably waives any objection, including, without limitation, any objection to the laying of venue or based on the grounds of forum non conveniens, which it may now or hereafter have to the bringing of any action in those jurisdictions, and (d) irrevocably consents to the service of process of any of the courts referred to above in any action by the mailing of copies of the process to the parties hereto as provided in the Credit Agreement. Service effected as provided in this manner will become effective ten calendar days after the mailing of the process.

Section 4. Waiver of Jury Trial. Each of the Lenders, Agent and Grantors hereby waives any right to a trial by jury in any action to enforce or defend any right under this IP Security Agreement or any amendment, instrument, document or agreement delivered or to be delivered in connection with this IP Security Agreement and agrees that any action will be tried before a court and not before a jury.

Section 5. Recordation. Each Grantor authorizes and requests that the Commissioner of Patents and Trademarks and any other applicable government officer record this IP Security Agreement.

Section 6. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of this IP Security Agreement by facsimile or other electronic transmission shall be equally effective as delivery of an original executed counterpart of this Guaranty.

Section 7. Conflict Provision. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement and the Credit Agreement. The rights and remedies of each party hereto with respect to the security interest granted herein are without prejudice to, and are in addition to those set forth in the Security Agreement and the Credit Agreement, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this IP Security Agreement are in conflict with the Security Agreement or

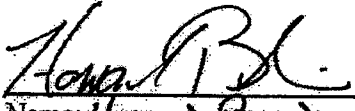

the Credit Agreement, the provisions of the Security Agreement or the Credit Agreement, as applicable, shall govern.

Section 8. Future Rights. In the event that any Grantor (a) subsequently registers any Trademark and/or Patent with the United States Patent and Trademark Office or with any state authority, or an application is filed therefor, or (b) shall obtain rights to any new Intellectual Property, such Grantor undertakes to promptly provide the Agent with written notice thereof and evidence of such application and/or registration to the Agent and its counsel. The Collateral so registered by any Grantor in the future is deemed to be described in Exhibit A and B annexed hereto, and the Agent may record this Agreement against each such item and in connection with any such changes. Each Grantor shall promptly cooperate with the Agent in modifying Exhibits A and B. Each Grantor agrees that it will join with the Agent in executing and, at its own expense, will file and refile, or permit the Agent to file and refile, such financing statements, continuation statements and other documents (including, without limitation, this Agreement), in such offices (including, without limitation, the United States Patent and Trademark Office and appropriate state trademark offices), as the Agent may reasonably deem necessary or appropriate, wherever required or permitted by law in order to perfect and preserve the rights and interests granted to the Agent for the benefit of the Lenders hereunder. Each Grantor hereby authorizes the Agent to file financing statements and amendments, relative to all or any part thereof, without the signature of such Grantor where permitted by law and agrees to do such further acts and things, and to execute and deliver to the Agent such additional assignments, agreements, powers and instruments, as the Agent may require to carry into effect the purposes of this Agreement or better to assure and confirm unto the Agent its respective rights, powers and remedies hereunder. Each Grantor shall, upon the request of the Agent, and hereby authorizes the Agent to, take any and all such actions as may be deemed necessary by the Agent to perfect and preserve the rights and interests granted to the Agent for the benefit of the Lenders with respect to the Intellectual Property wherever located. All of the foregoing shall be at the sole cost and expense of such Grantor. This Section is not intended to cover any Intent to Use trademark applications filed by any Grantor.

Section 9. Amendment and Restatement. Each Grantor and the Agent agree that this IP Security Agreement shall be deemed to amend, restate and replace the Existing IP Security Agreement in its entirety and the rights and obligations of the parties under the Existing IP Security Agreement shall be governed by and deemed to be outstanding under this IP Security Agreement. Each Grantor acknowledges and agrees that: (i) each reference in the Credit Documents to the IP Security Agreement shall be a reference to this IP Security Agreement, (ii) this IP Security Agreement is an amendment and restatement of and not an extinguishment or novation of the Existing IP Security Agreement, and (iii) with respect to matters prior to the date of this IP Security Agreement, all terms of the Existing IP Security Agreement are ratified and confirmed.
