INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as it may be amended, restated or otherwise modified from time to time, this “**Agreement**”) is entered into as of April 28, 2017 between Midwest Industrial Supply, Inc., an Ohio corporation (the “**Grantor**”), and The Huntington National Bank (the “**Lender**”).

Reference is made to that certain Credit and Security Agreement dated as of April 28, 2017 (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time and in effect on the date hereof, the “**Credit Agreement**”) among Grantor, MIDWEST INDUSTRIAL EXPORTS, INC., an Ohio corporation, and MWI ACQUISITION, INC. (to be known as Syntech Products, Inc.), an Ohio corporation (collectively, “**Borrowers**” and individually, each, a “**Borrower**”) and the Lender. The Lender has agreed to extend credit to the Borrowers subject to the terms and conditions set forth in the Credit Agreement. The Grantor is willing to execute and deliver this Agreement in order to induce the Lender to enter into the Credit Agreement and the other Loan Documents (as defined in the Credit Agreement). Accordingly, the parties hereto agree as follows:

1 Terms.

Capitalized terms used in this Agreement and not otherwise defined herein have the meanings specified in the Credit Agreement.

2 Grant of Security Interest.

To secure the prompt payment and performance, in full when due of the Obligations, the Grantor hereby grants to the Lender a security interest (the “**Security Interest**”) in all of the Grantor’s right, title and interest in, to and under Collateral consisting of any Copyrights, Patents and Trademarks now owned or at any time hereafter acquired by the Grantor, including those registered or applied for Trademarks listed on Schedule A, Patents listed on Schedule B, and Copyrights list on Schedule C (collectively, the “**Intellectual Property Collateral**”). The Grantor authorizes and agrees that Lender may record this Agreement with the United States Copyright Office and with the United States Patent and Trademark Office, as applicable.

3 Credit Agreement.

The Security Interest granted to the Lender herein is granted in furtherance, and not in limitation, of the security interests granted to the Lender pursuant to the Credit Agreement. The Grantor hereby acknowledges and affirms that the rights and remedies of the Lender with respect to the Intellectual Property Collateral are more fully set forth in the Credit Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Credit Agreement, the terms of the Credit Agreement shall govern.

4 Recordation; New Intellectual Property Collateral.

The Grantor authorizes and agrees that Lender may record this Agreement with the United States Copyright Office and with the United States Patent and Trademark Office. If

Grantor shall obtain rights to any new Intellectual Property Collateral, the provisions of Sections 2 and 3 hereof shall automatically apply thereto as if the same were identified on Schedules A, B, and/or C attached hereto and made a part hereof as of the date hereof, and Grantor shall give Lender prompt written notice thereof. Grantor hereby authorizes Lender to modify this Agreement by amending Schedules A, B, and/or C to include any future Intellectual Property Collateral as contemplated by Sections 2 and this Section 4 and, at Lender's request, Grantor shall execute any documents or instruments reasonably required by Lender in order to modify this Agreement as provided in this Section 4, provided that any such modification to Schedules A, B, and/or C shall be effective without the signature of Grantor. Grantor hereby acknowledges that Lender may refile or re-record this Agreement with the United States Copyright Office and with the United States Patent and Trademark Office, together with any such modification to Schedules A, B, and/or C.

5 Event of Default.

Grantor shall also execute and deliver to Lender the Assignment in substantially the form of Exhibit A, which Assignment shall have no force and effect and shall be held by Lender in escrow, until the occurrence of an Event of Default; provided that, anything herein to the contrary notwithstanding, the security interest granted herein shall be effective as of the date of this Agreement. After the occurrence of an Event of Default, the Assignment shall take effect immediately upon certification of such fact by an authorized officer of Lender in such Assignment and upon written notice to Grantor and thereafter Lender may, in its discretion, record the Assignment with the United States Copyright Office and with the United States Patent and Trademark Office.

6 Counterparts.

This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original but all of which when taken together shall constitute a single contract. Delivery of an executed signature page to this Agreement by facsimile or other electronic transmission shall be effective as delivery of a manually signed counterpart of this Agreement.

7 Termination.

Upon the termination of the Credit Agreement in accordance with its terms, or any disposition of the Intellectual Property Collateral in a transaction permitted under the Credit Agreement, following a written request therefor, the Lender shall execute, acknowledge, and deliver to the Grantor (at the Grantor's sole expense) an instrument in writing in recordable form releasing the grant and security interest in the applicable Intellectual Property Collateral under this Agreement and take any other actions reasonably requested by the Grantor to effect such release.

8 Governing Law.

This Agreement is made under and shall be governed by Section 15.1 of the Credit Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Agreement as of the day and year first above written.
