Assignor and Assignee are sometimes referred to herein individually as a "Party" and collectively as the "Parties". Capitalized terms used herein that are defined in the Purchase Agreement (as defined below) shall have the respective meanings ascribed to them in the Purchase Agreement unless otherwise defined herein.

**WHEREAS**, Assignor and Assignee have entered into that certain Asset Purchase Agreement dated as of March 14, 2017 (the "Purchase Agreement"), pursuant to which Assignor has agreed to sell, transfer, set over, convey, assign and deliver to Assignee, and Assignee has agreed to purchase, acquire and accept from Assignor, all right, title and interest of Assignor in and to the Purchased Assets, including the Transferred Intellectual Property.

**NOW, THEREFORE**, for and in consideration of the premises and the mutual covenants contained herein, and for other good and valuable consideration, the receipt, adequacy and legal sufficiency of which are hereby acknowledged, the parties do hereby agree as follows:

1. Assignment of Transferred Intellectual Property. Upon the terms and subject to the conditions set forth in the Purchase Agreement, effective as of the date hereof, Assignor hereby irrevocably sells, transfers, sets over, conveys, assigns, grants and delivers to Assignee, its successors and assigns, forever, free and clear of any and all Liens (other than Permitted Liens), and Assignee hereby purchases, acquires and accepts from Assignor, all right, title and interest of Assignor in, to and under the Transferred Intellectual Property, including the Transferred Domain Names, the Transferred Trademark Rights and the Transferred Patent Rights set forth on Schedule A attached hereto, together with all of the goodwill associated with the foregoing and all rights to sue for and obtain damages and injunctive relief for past, present and future infringement, dilution and violation of the foregoing. The Parties acknowledge and agree that the assignment of any United States intent-to-use applications included in the foregoing is in connection with the transfer of the business or assets to which such intent-to-use applications pertain.

2. Recordation of Trademarks. Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable countries outside the United States, to record this Assignment and issue such additional trademark and service mark registrations or amended registrations that have been or may be granted upon any application or petition for same, to Assignee, its successors and assigns. Assignee shall bear all costs and fees associated with such recording with the U.S. Patent & Trademark Office or corresponding entities or agencies in any applicable countries outside the United States.

3. Recordation of Patents. 12. Severability. The provisions of this IP Agreement shall be deemed severable and the invalidity, illegality or unenforceability of any provision shall not affect the validity, legality or enforceability of the other provisions hereof. If any term or other provision of this IP Agreement, or the application thereof to any Person or any circumstance, is invalid, illegal or unenforceable, (a) a suitable and equitable provision shall be substituted therefore in order to carry out, so far as may be valid, legal and enforceable, the intent and purpose of such invalid, illegal or unenforceable provision and (b) the remainder of this IP Agreement and the application of such provision to other Persons or circumstances shall not be affected by such invalidity, illegality or unenforceability, nor shall such invalidity, illegality or unenforceability affect the validity, legality or enforceability of such provision, or the application thereof, in any other jurisdiction.
