### RECITALS

- (A) Mac Lean-Fogg Company, a Delaware corporation (“**Borrower**”), the financial institutions party thereto from time to time as lenders (each individually referred to as a “**Lender**” and collectively as “**Lenders**”) and Ares Capital Corporation, as administrative agent for the Lenders and collateral agent for the Secured Parties (in such capacities, the “**Administrative Agent**”) are parties to that certain Term Loan Credit Agreement dated as of December 21, 2018 (as amended, restated, supplemented or otherwise modified from time to time in accordance with its terms, the “**Term Loan Credit Agreement**”).
- (B) Grantors are party to that certain Pledge and Security Agreement, dated as of December 21, 2018 in favor of the Collateral Agent (as it may from time to time be amended, restated, supplemented or otherwise modified in accordance with its terms, the “**Pledge and Security Agreement**”), pursuant to which the Grantors are required to execute and deliver this Agreement.
- (C) In consideration of the conditions and agreements set forth in the Term Loan Credit Agreement, the Pledge and Security Agreement and this Agreement, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

### SECTION 1 Defined Terms

Unless otherwise defined herein, terms defined in the Pledge and Security Agreement and used herein have the meaning given to them in the Pledge and Security Agreement.

### SECTION 2 Grant of Security Interest in Intellectual Property Collateral

As security for the prompt and complete payment and performance in full when due (whether at stated maturity, by required prepayment, declaration, acceleration or otherwise, including the payment of amounts that would become due but for the operation of the automatic stay under Section 362(a) of the Bankruptcy Code) of all Obligations (as defined in the Term Loan Credit Agreement), each Grantor hereby pledges and grants to the Collateral Agent, for its benefit and for the benefit of the Secured Parties, a continuing security interest in and Lien on all of its right, title and interest in, to and under all Intellectual Property Collateral (as defined below), whether now owned or hereafter acquired or existing and wherever located.

“**Intellectual Property Collateral**” means each Grantor’s right, title and interest in, to and under all of the following property (other than any Excluded Assets):

- (a) all Copyrights owned by any Grantor, including those referred to on Schedule I hereto;
- (b) all Patents owned by any Grantor, including those referred to on Schedule I hereto;

- (c) all Trademarks owned by any Grantor, including those referred to on Schedule I hereto;
- (d) all goodwill of the business connected with the use of, and symbolized by, each Trademark owned by any Grantor;
- (e) all reissues, continuations or extensions of the foregoing; and
- (f) all Proceeds of the foregoing, including any claim by Grantor against third parties for past, present or future (i) infringement or, if applicable, dilution of any Copyright, Trademark or Patent or (ii) injury to the goodwill associated with any Trademark or Patent.

### **SECTION 3 Certain Exclusions**

Notwithstanding anything herein to the contrary, in no event will the Intellectual Property Collateral include and Grantor will not be deemed to have granted a Security Interest in any of its right, title or interest in any Excluded Assets, including any “intent to use” trademark applications filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. Section 1051, prior to the accepted filing of a “Statement of Use” pursuant to Section 1(d) of the Lanham Act or an “Amendment to Allege Use” pursuant to Section 1(c) of the Lanham Act with respect thereto (but only until the filing of such statement is accepted and solely to the extent, if any, that a Lien therein (including the granting, attachment or enforcement thereof) would impair the validity or enforceability of such intent-to-use application or any registration that issues from such intent-to-use application under applicable federal law).

### **SECTION 4 Pledge and Security Agreement**

The security interest granted pursuant to this Agreement is granted in conjunction with the security interest granted to the Collateral Agent pursuant to the Pledge and Security Agreement, and each Grantor hereby acknowledges and affirms that the rights and remedies of the Collateral Agent with respect to the security interest granted by them in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Pledge and Security Agreement. To the extent applicable for purposes of this Agreement, the terms and provisions of the Pledge and Security Agreement are incorporated by reference herein. To the extent there is any conflict or inconsistency between the terms of this Agreement and the Pledge and Security Agreement, the Pledge and Security Agreement shall control.
