This INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated as of December 21, 2018 (as amended, supplemented or otherwise modified from time to time, the “Intellectual Property Security Agreement”), is made by each of the signatories hereto (collectively, the “Grantors”) in favor of Bank of America, N.A., as agent for the Lenders (as defined in the Credit Agreement referred to below) (in such capacity, the “Agent”). Capitalized terms used and not defined herein have the meanings given such terms in the Credit Agreement referred to below.

WHEREAS, Grantors, the Agent and other parties thereto have entered into that certain Loan, Security and Guaranty Agreement, dated as of December 21, 2018 (as amended, supplemented, or otherwise modified from time to time, the “Credit Agreement”), pursuant to which each Grantor has granted to Agent, for the benefit of Secured Parties, a continuing Lien on all personal Property of such Grantor, including, without limitation, certain Intellectual Property of such Grantor, and have agreed to execute this Intellectual Property Security Agreement for recording with the United States Patent and Trademark Office, the United States Copyright Office, and other applicable Governmental Authorities.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Agent, for the benefit of Secured Parties, a continuing Lien on the following property, whether now owned or hereafter acquired and wherever located (the “IP Collateral”), to secure the prompt payment and performance of its Obligations:

(a) all trademarks, service marks, certification marks, tradenames, slogans, logos, trade dress, Internet domain names, and other source identifiers, whether statutory or common law, whether registered or unregistered, and whether established or registered in the United States or any other country or any political subdivision thereof, together with any and all (i) registrations and applications for any of the foregoing, including, without limitation, each registration and application identified in Schedule A (except for any Trademark application filed in the United States Patent and Trademark Office on the basis of the applicant's intent-to-use such Trademark unless and until evidence of use of the Trademark has been filed with, and accepted by, the United States Patent and Trademark Office pursuant to Section 1(c) or Section 1(d) of the Lanham Act (15 U.S.C. §1051, et seq.), to the extent that granting a lien in such Trademark application prior to such filing would adversely affect the enforceability or validity of such Trademark application; provided, that, to the extent such application is excluded from the IP Collateral, upon the submission of evidence of use of such Trademark to the United States Patent and Trademark Office, such Trademark application shall automatically be included in the IP Collateral, without further action on any party's part), (ii) goodwill connected with the use thereof and symbolized thereby, (iii) rights and privileges arising under applicable law with respect to the use of any of the foregoing, (iv) reissues, continuations, extensions and renewals thereof and amendments thereto, (v) income, fees, royalties, damages and payments now and hereafter due and/or payable thereunder and with respect thereto, including damages, claims and payments for past, present or future infringements, dilutions or other violations thereof, (vi) rights to sue for past, present and future infringements, dilutions or other violations thereof, and (vii) rights corresponding thereto throughout the world;

(b) patents, patent applications, certificates of inventions, industrial designs (whether established or registered or recorded in the United States or any other country or any political subdivision thereof), including, without limitation, each issued patent and patent application identified on Schedule B, together with any and all (i) inventions described and claimed therein, (ii) reissues, divisions,

continuations, renewals, extensions and continuations-in-part thereof and amendments thereto, (iii) income, fees, royalties, damages, claims and payments now or hereafter due and/or payable thereunder and with respect thereto including damages and payments for past, present or future infringements or other violations thereof, (iv) rights to sue for past, present or future infringements or other violations thereof, and (v) rights corresponding thereto throughout the world;

(c) copyrights (whether statutory or common law, whether established, registered or recorded in the United States or any other country or any political subdivision thereof, and whether published or unpublished) and all mask works (as such term is defined in 17 U.S.C. Section 901, et seq.), together with any and all (i) registrations and applications therefor, including, without limitation, each registration identified on Schedule C, (ii) rights and privileges arising under applicable law with respect to such copyrights, (iii) renewals and extensions thereof and amendments thereto, (iv) income, fees, royalties, damages, claims and payments now or hereafter due and/or payable with respect thereto, including damages and payments for past, present or future infringements or other violations thereof, (v) rights to sue for past, present or future infringements thereof, and (vi) rights corresponding thereto throughout the world; and

SECTION 2. Recordation. Each Grantor authorizes and requests that the United States Register of Copyrights or the United States Commissioner of Patents and Trademarks, as applicable, record this Intellectual Property Security Agreement.

SECTION 3. Counterparts; Execution. This Intellectual Property Security Agreement may be executed in counterparts, each of which shall constitute an original, but all of which when taken together shall constitute a single contract. This Intellectual Property Security Agreement shall become effective when Agent has received counterparts bearing the signatures of all parties hereto. Agent may (but shall have no obligation to) accept any signature, contract formation or record-keeping through electronic means, which shall have the same legal validity and enforceability as manual or paper-based methods, to the fullest extent permitted by Applicable Law, including the Federal Electronic Signatures in Global and National Commerce Act, the New York State Electronic Signatures and Records Act, or any similar state law based on the Uniform Electronic Transactions Act. Upon request by Agent, any electronic signature or delivery shall be promptly followed by a manually executed or paper document.

SECTION 5. Conflict Provision. This Intellectual Property Security Agreement has been entered into in conjunction with the provisions of the Credit Agreement. The rights and remedies of each party hereto with respect to the continuing Lien granted herein are without prejudice to, and are in addition to those set forth in the Credit Agreement, all terms and provisions of which are incorporated herein by reference. In the event that any provisions of this Intellectual Property Security Agreement are in conflict with the Credit Agreement, the provisions of the Credit Agreement shall govern.
