PATENT AND TRADEMARK SECURITY AGREEMENT

This Agreement is made as of November 13, 2019 by and between the parties listed on the signature pages hereof as Grantors (the “Grantors”), and JPMORGAN CHASE BANK, N.A. (the “Lender”).

Briggs Medical Service Company, a Delaware corporation (the “Borrower”), and certain of its subsidiaries are parties with the Lender to (a) a First Amended and Restated Credit Agreement dated as of August 1, 2016 (as amended, restated, supplemented or otherwise modified from time to time, the “Credit Agreement”), pursuant to which the Lender has agreed to extend credit and make certain financial accommodations to or for the benefit of the Borrower as provided therein; and (b) a First Amended and Restated Pledge and Security Agreement dated as of August 1, 2016 (as amended, restated, supplemented or otherwise modified from time to time, the “Security Agreement”), pursuant to which the Borrower and certain of its subsidiaries granted to the Lender a security interest in and to substantially all of their personal property, including, without limitation, certain of the Patent and Trademark Collateral (as defined below).

The Lender has required the execution and delivery of this Agreement to further evidence, as to certain Collateral, the security interest granted under the Security Agreement.

ACCORDINGLY, in consideration of the premises and to induce the Lender to continue to make its extensions of credit to or for the benefit of the Grantors under the Credit Agreement, the Grantors hereby agree with the Lender as follows:

1. Definitions. Terms defined in or pursuant to the Credit Agreement or the Security Agreement and not otherwise defined herein shall have the meanings given them in or pursuant to the Credit Agreement or the Security Agreement. In addition, the following terms have the meanings set forth below:

“Patent” means any patent or application for patent.

“Patent and Trademark Collateral” means all right, title and interest of each Grantor in and to the following, in each case whether now existing or hereafter acquired or arising:

- (i) All Patents, including the Specified Patents.
- (ii) All Trademarks, including the Specified Trademarks.
- (iii) All accounts and other rights to payment (including, but not limited to, payments of royalties) arising from or relating to any Patent or Trademark.
- (iv) All rights to recover for all past, present, and future infringements, dilutions, pre-issuance recoveries and other violations of Patents and Trademarks.
- (v) All present and future license agreements with respect to the Patents and Trademarks.
- (vi) All proceeds of any and all of the foregoing.

“Specified Patent” means each of the Patents listed on Schedule A, together with all continuations, continuations-in-part, divisions, foreign counterparts, reissues, reexaminations, renewals and extensions thereof.

“Specified Trademark” means each of the Trademarks listed on Schedule B, together with all divisions, foreign counterparts, renewals and extensions thereof.

“Trademark” means any trademark, service mark, collective membership mark, and registration or application for registration of any trademark, service mark or collective membership mark, together with the goodwill associated therewith.

2. Grant of Security Interest. In order to secure the Obligations, each Grantor hereby confirms and acknowledges that it has granted and created (and, to the extent not previously granted under the Security Agreement, does hereby irrevocably grant and create) a security interest in the Patent and Trademark Collateral to the Lender.

3. Representations and Warranties. The Grantors represent and warrant that a Grantor owns each of the Specified Patents and Specified Trademarks indicated with respect to such Grantor on Schedules A and B, respectively, free and clear of any Lien other than Liens permitted under the Loan Documents.

4. General Rights and Obligations. Except as expressly set forth herein, the rights and obligations of the Grantors and the Lender with respect to the Patent and Trademark Collateral shall in all respects be governed by the Credit Agreement and the Security Agreement, the terms of which are incorporated as fully as if set forth at length herein.

5. Continuing Effect. This Agreement and the Lender’s security interest in the Patent and Trademark Collateral shall continue in full force and effect until all of the Obligations have been satisfied in full (other than inchoate contingent Obligations for which no demand has been made) and the Lender has no commitment to make any further advances or grant any other financial accommodations to or for the benefit of the Loan Parties.

6. Counterparts. This Agreement may be executed in any number of counterparts, all of which taken together shall constitute one agreement, and any of the parties hereto may execute this Agreement by signing any such counterpart. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic transmission shall be effective as delivery of a manually executed counterpart of this Agreement.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date written above.
