MASTER PATENT AND TRADEMARK SECURITY AGREEMENT dated as of April 17, 2020 (this "Agreement"), among TUPPERWARE BRANDS CORPORATION, a Delaware corporation, DART INDUSTRIES INC., a Delaware corporation, the other GRANTORS from time to time party hereto and JPMORGAN CHASE BANK, N.A., as Administrative Agent.

Reference is made to (a) the Second Amended and Restated Credit Agreement dated as of March 29, 2019 (as it may be amended, restated, amended and restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), among the Parent Borrower, Tupperware Nederland B.V. (formerly known as Tupperware International Holdings B.V.), a *besloten vennootschap met beperkte aansprakelijkheid* organized under the laws of the Netherlands, registered with the Dutch trade register under number 27119364, Administradora Dart, S. de R.L. de C.V., a limited liability corporation (*sociedad de responsabilidad limitada de capital variable*) organized under the laws of Mexico, and Tupperware Brands Asia Pacific Pte. Ltd., a private limited liability company incorporated under the laws of Singapore, the Lenders party thereto and JPMorgan Chase Bank, N.A., as Administrative Agent and (b) the Master Collateral Agreement referred to therein. The Lenders and Issuing Banks have agreed to extend credit to the Borrowers subject to the terms and conditions set forth in the Credit Agreement.

SECTION 1. Terms. Each capitalized term used but not otherwise defined herein shall have the meaning specified in the Credit Agreement or the Master Collateral Agreement, as applicable. The rules of construction specified in Section 1.03 of the Credit Agreement also apply to this Agreement, mutatis mutandis.

SECTION 2. Grant of Security Interest. As security for the payment and performance in full of the Obligations, each Grantor pursuant to the Master Collateral Agreement did, and hereby does, grant to the Administrative Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in all of such Grantor's right, title and interest in, to and under any and all of the following assets now owned or at any time hereafter acquired by such Grantor or in, to or under which such Grantor now has or at any time hereafter may acquire any right, title or interest (collectively, the "Patent and Trademark Collateral"):

(a) (i) all letters patent of the United States of America, and all registrations and applications for letters patent of the United States of America, including, in the case of any Grantor, any of the foregoing set forth under its name on Schedule I hereto, and (ii) all reissues, continuations, divisionals, continuations-in-part, reexaminations, supplemental examinations, adjustments or extensions thereof, and the inventions disclosed or claimed therein;

(b) (i) all trademarks and service marks, including all registrations and applications filed in the United States Patent and Trademark Office and all extensions or renewals thereof, including, in the case of any Grantor, any of the foregoing set forth under its name on Schedule II hereto and (ii) all goodwill associated therewith or symbolized thereby;

in each case, other than any such asset if, to the extent and for so long as such asset does not, pursuant to the final proviso of Section 3.01(a) of the Master Collateral Agreement, constitute Article 9 Collateral.

SECTION 3. Collateral Agreement. Intellectual Property License. Pursuant to the Master Collateral Agreement, for the purpose of enabling the Administrative Agent to exercise rights and remedies under Article IV of the Master Collateral Agreement at such time as the Administrative Agent shall be lawfully entitled to exercise such rights and remedies, each Grantor has granted to the Administrative Agent, for the benefit of the Secured Parties, an irrevocable nonexclusive license (exercisable without payment of royalty or other compensation to the Grantors), solely to the extent such Grantor has the right to do so and solely to the extent the grant thereof does not constitute a breach of any contract, to use, license or sublicense any of the Article 9 Collateral consisting of Intellectual Property owned as of the date of the Master Collateral Agreement or thereafter acquired by such Grantor, and wherever the same may be located, and including in such license reasonable access to all media in which any of the licensed items may be recorded or stored and to all computer software and programs used for the compilation or printout thereof, the right to prosecute and maintain all Intellectual Property and the right to sue for infringement of the Intellectual Property

SECTION 4. Collateral Agreement. The security interests granted to the Administrative Agent herein are granted in furtherance of, and not in limitation of, the security interests granted to the Administrative Agent pursuant to the Master Collateral Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Administrative Agent with respect to the Patent and Trademark Collateral are more fully set forth in the Master Collateral Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Master Collateral Agreement, the terms of the Master Collateral Agreement shall govern.

SECTION 5. Counterparts. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Agreement by fax, emailed pdf or any other electronic means that reproduces an image of the actual executed signature page shall be effective as delivery of a manually executed counterpart of this Agreement.

SECTION 6. Incorporation by Reference. The provisions of Sections 5.02, 5.04, 5.06, 5.09 and 5.10 of the Master Collateral Agreement are hereby incorporated by reference herein as if set forth in full force herein, mutatis mutandis.
