Intellectual Property Security Agreement

This **INTELLECTUAL PROPERTY SECURITY AGREEMENT** (the “**IP Security Agreement**”) dated as of July 1, 2020, is made by the Persons listed on the signature pages hereof (collectively, the “**Grantors**”) in favor of Bank of America, N.A., as Administrative Agent and Collateral Agent (together with its successors in such capacities, the “**Agent**”) for the Secured Parties (each as defined in the Credit Agreement referred to below).

WHEREAS, Williams Scotsman Holdings Corp., a Delaware corporation, and certain of its Subsidiaries (including the Grantors) have entered into an ABL Credit Agreement dated as of July 1, 2020 (said Agreement, as it may hereafter be amended, amended and restated, supplemented or otherwise modified from time to time, being the “**Credit Agreement**”) with Bank of America, N.A., as Agent on behalf of the Secured Parties (as defined therein).

WHEREAS, the Grantors entered into a Security and Pledge Agreement dated as of July 1, 2020 (said Agreement, as it may hereafter be amended, amended and restated, supplemented or otherwise modified from time to time, being the “**Security Agreement**”). Terms defined in the Security Agreement and not otherwise defined herein are used herein as defined in the Security Agreement.

WHEREAS, under the terms of the Security Agreement, the Grantors have granted a security interest in, among other property, certain intellectual property of the Grantors to the Agent for the benefit of the Secured Parties, and have agreed to execute this IP Security Agreement covering certain registered, issued or applied for intellectual property for recording the security interest granted thereunder with the U.S. Patent and Trademark Office, the United States Copyright Office, the Canadian Intellectual Property Office or any other applicable governmental authorities necessary to perfect the security interest thereunder in such intellectual property, as applicable.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

1. GRANT OF SECURITY

Each Grantor hereby grants to the Agent for the benefit of the Secured Parties a continuing security interest in all of such Grantor’s right, title and interest in and to all of the following property of such Grantor, wherever located and whether now existing or hereafter arising or acquired (collectively, the “**Collateral**”):

- 1.1 all United States and Canadian patents, patent applications, certificates of inventions and industrial designs set forth in Schedule A hereto, together with all reissues, divisionals, continuations, continuations-in-part, extensions and re-examinations thereof, and all inventions both described and claimed therein (the “**Patents**”);
- 1.2 all United States and Canadian registrations and applications for trademarks, service marks, certification marks, collective marks, trade dress, slogans, logos and other source identifiers, and all other marks registered in the U.S. Patent and Trademark Office, the Canadian Intellectual Property Office or in any office or agency of any State or Territory of the United States or Canada and set forth in Schedule B hereto (but excluding any intent-to-use application filed pursuant to Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, prior to the filing and acceptance of an “Amendment to Allege Use” or a “Statement of Use” pursuant to Section 1(c) or (d) of the Lanham Act, solely to the extent that, and solely during the period, if any, in which, the grant of a security interest therein would impair the validity or enforceability of any registration that issues from such intent-to-use application under applicable federal law), all reissues, extensions and renewals and amendments of any of the foregoing, together in each case with the goodwill of the business connected therewith and symbolized thereby (the “**Trademarks**”);

- 1.3 all United States and Canadian registered and applied for copyrights, copyright applications and copyright registrations set forth in Schedule C hereto, and any renewals or extensions thereof, (the “**Copyrights**”);
- 1.4 the right, but not the obligation, to sue or otherwise recover for any past, present or future infringement, misappropriation, dilution or other violation of any of the foregoing, and all payments, damages, and claims for damages with respect thereto;
- 1.5 all rights provided by international treaties or conventions with respect to any of the foregoing, and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto throughout the world;
- 1.6 any and all payments, damages, claims for damages for past, present and future infringement, misappropriation or violation with respect to the Patents, Trademarks and Copyrights, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- 1.7 to the extent not covered in Sections 1.1, 1.2, 1.3 and 1.4, all income, fees, royalties and proceeds (now or hereafter due and/or payable) relating to, any and all of the foregoing.
- 1.8 Notwithstanding anything to the contrary contained above, the security interest created by this IP Security Agreement shall not extend to Excluded Assets.

2. RECORDATION

Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner of Patents and Trademarks, the Canadian Intellectual Property Office or any other government officer, as applicable, record this IP Security Agreement.

3. EXECUTION IN COUNTERPARTS

This IP Security Agreement may be executed by one or more of the parties to this IP Security Agreement on any number of separate counterparts (including by facsimile or other electronic imaging means), each of which shall constitute an original, but all of which when taken together shall be deemed to constitute one and the same instrument. Delivery of an executed signature page of this IP Security Agreement by facsimile or other electronic transmission (e.g. “pdf” or “tif” format) shall be effective as delivery of a manually executed counterpart hereof.

4. GRANTS, RIGHTS AND REMEDIES

This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event that any provision of this IP Security Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall govern.

5. GOVERNING LAW

THIS IP SECURITY AGREEMENT AND ANY DISPUTE, CLAIM OR CONTROVERSY ARISING OUT OF OR RELATING TO THIS IP SECURITY AGREEMENT (WHETHER ARISING IN CONTRACT, TORT OR OTHERWISE) SHALL BE GOVERNED BY, AND CONSTRUED AND INTERPRETED IN ACCORDANCE WITH, THE LAW OF THE STATE OF NEW YORK.
