RELEASE OF SECURITY INTEREST IN INTELLECTUAL PROPERTY (INDENTURE)

This **RELEASE OF SECURITY INTEREST IN INTELLECTUAL PROPERTY** (this “**Release**”) dated as of July 1, 2020, is made by Deutsche Bank Trust Company Americas, as Collateral Agent for the Secured Parties (the “**Agent**”) in favor of Williams Scotsman, Inc., a Maryland corporation with offices at 901 S. Bond Street, Baltimore, MD 21231 (the “**Grantor**”). Capitalized terms not defined herein shall have the meaning ascribed to them in the IP Security Agreement (as defined below).

WHEREAS, Williams Scotsman Holdings Corp. and certain of its Subsidiaries (including the Grantor) entered into an Indenture dated as of November 29, 2017 (as may have been amended, amended and restated, supplemented or otherwise modified from time to time, the “**Indenture**”) with the Agent;

WHEREAS, pursuant to the Indenture, Grantor entered into a Security and Pledge Agreement, dated as of November 29, 2017 (as may have been amended, amended and restated, supplemented or otherwise modified from time to time, the “**Security Agreement**”), and pursuant to the Security Agreement, the Grantor executed and delivered an Intellectual Property Security Agreement, dated as of November 29, 2017, in favor of the Agent (the “**IP Security Agreement**”);

WHEREAS, pursuant to the Security Agreement and the IP Security Agreement, the Grantor pledged and granted to the Agent for the benefit of the Secured Parties a lien on and security interest (the “**Security Interest**”) in and to all of the Grantor’s right, title and interest in, to and under the following property, wherever located, and whether then existing or thereafter arising or acquired from time to time, but excluding any Excluded Assets (the “**IP Collateral**”): (a) all United States patents, patent applications, and certificates of inventions and industrial designs set forth in Schedule A hereto, together with all reissues, divisions, continuations, continuations-in-part, extensions, amendments and re-examinations thereof, all inventions both described and claimed therein, and all rights therein provided by international treaties or conventions (the “**Patents**”); (b) all United States registrations and applications for trademarks, service mark, service marks, certification marks, collective marks, trade dress, slogans, logos, Internet domain names, product configurations, trade names, business names, corporate names and other source identifiers, whether or not registered, whether statutory or common law, whether currently in use or not, including, without limitation, all common law rights and registrations and applications for registration thereof, and all other marks registered in the U.S. Patent and Trademark Office or in any office or agency of any State or Territory of the United States or any foreign county (but excluding any United States intent-to-use trademark application prior to the filing and acceptance of a Statement of Use or an Amendment to allege use in connection therewith to the extent that a valid security interest may not be taken in such an intent-to-use trademark application under applicable law), and all rights therein provided by international treaties or conventions or other applicable laws with respect to the use of any of the foregoing, all reissues, extensions, continuations and renewals and amendments of any of the foregoing, together in each case with the goodwill of the business connected therewith and symbolized thereby, and all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of the Grantor accruing thereunder or pertaining thereto set forth in Schedule B hereto (the “**Trademarks**”); (c) all copyrights, copyright applications, copyright registrations and like protections in each work of authorship, whether statutory or under common law, whether published or unpublished, registered or recorded in the United States and all mask works (as such term is defined in 17 U.S.C. Section 901, et seq.), all rights and privileges arising under applicable law with respect to such copyrights, any renewals or extensions thereof, all copyrights of works derived from such copyrights, including, without limitation, the copyright registrations and copyright applications, together with all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of the Grantor accruing thereunder or pertaining thereto set forth in Schedule C hereto (the “**Copyrights**”); (d) any and all payments, damages, claims for damages for past, present and future infringement, misappropriation or breach with respect to the Patents, Trademarks and Copyrights, with the

right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and (e) to the extent not covered above, all income, fees, royalties and proceeds (now or hereafter due and/or payable) of, collateral for and supporting obligations relating to, any and all of the foregoing;

WHEREAS, the IP Security Agreement was recorded in the United States Patent and Trademark Office on November 30, 2017 at Reel/Frame 44556/0920 (with respect to the Patents), and at Reel/Frame 6220/0488 (with respect to the Trademarks), and was recorded at the United States Copyright Office on December 8, 2017 at Volume 9953, Doc.
