1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Security Agreement or Credit Agreement, as applicable.

2. Grant of Security Interest in Intellectual Property. (b) (i) all of its Patents, including, without limitation, those referred to on Schedule I hereto; (ii) all reissues, reexaminations, continuations, continuations-in-part, divisionals, renewals and extensions of the foregoing; and (iii) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

(c) (i) all of its Trademarks, including, without limitation, those referred to on Schedule I hereto; (ii) all renewals and extensions of the foregoing; (iii) all Goodwill of the business connected with the use of, and symbolized by, each such Trademark; and (iv) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

Notwithstanding anything to the contrary contained in clauses (a) through (c) above, the security interest created by this Security Agreement shall not extend to, and the term “Intellectual Property Collateral” shall not include, any Excluded Property.

3. Security for Secured Obligations. This Intellectual Property Security Agreement and the security interest created hereby secures the payment and performance of the Secured Obligations, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Intellectual Property Security Agreement secures the payment of all amounts which constitute part of the Secured Obligations and would be owed by the Grantors, or any of them, to the Agent and the other Credit Parties, whether or not they are unenforceable or not allowable due to the existence of an insolvency proceeding involving any Grantor.

4. Security Agreement. The security interest granted pursuant to this Intellectual Property Security Agreement is granted in conjunction with the security interest granted to the Agent pursuant to the Security Agreement and each Grantor hereby acknowledges and agrees that the rights and remedies of the Agent with respect to the security interest in the Intellectual Property made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. To the extent there is any inconsistency between this Intellectual Property Security Agreement and the Security Agreement, the Security Agreement shall control.

5. Authorization to Supplement.

(a) If any Grantor shall obtain rights to any new Intellectual Property, the provisions of this Intellectual Property Security Agreement shall automatically apply thereto.

(b) Without limiting the Grantors’ obligations under this section, solely to the extent that Grantor has not delivered a new Intellectual Property Security Agreement in accordance with the terms of the Security Agreement, the Grantors hereby authorize the Agent unilaterally to modify this Intellectual Property Security Agreement by amending Schedule I to include any such new Intellectual Property. Notwithstanding the foregoing, no failure to so modify this Intellectual Property Security Agreement or amend Schedule I shall in any way affect, invalidate or detract

from the Agent's continuing security interest in all Intellectual Property, whether or not listed on Schedule I.

6. [Reserved].

7. Counterparts. This Intellectual Property Security Agreement is a Loan Document. This Intellectual Property Security Agreement may be executed in any number of counterparts and by different parties on separate counterparts, each of which, when executed and delivered, shall be deemed to be an original, and all of which, when taken together, shall constitute but one and the same Intellectual Property Security Agreement. Any party delivering an executed counterpart of this Intellectual Property Security Agreement by telefacsimile or other electronic method of transmission also shall deliver an original executed counterpart of this Intellectual Property Security Agreement but the failure to deliver an original executed counterpart shall not affect the validity, enforceability, and binding effect of this Intellectual Property Security Agreement.
